Yes thank you to everyone. I know this is all very intense and your comments will help ensure the integrity of whatever approach we carry forward.

Thanks again.

Team:

I want express my gratitude for all your hard work on the Anaconda project. This is a great week for our team and we should be proud of our two latest accomplishments.

On Monday, Enrique signed the ROD for OU8. I know that this ROD represents 15+ years of EPA's efforts.

Today, we submitted our comments on the ARC/NDEP deferral documents. Many of you spend numerous hours, days, weeks, reviewing and drafting our NV/ARC Deferral Documents comments. I am very pleased with the end result and already received positive feedback from NDEP. Greg just called me to thank us for our "thoughtful and productive comments" and requested that we don't wait until tomorrow to share them with everyone. Harry shared them with all of our stakeholders. I know it wasn't

easy to review and narrow down our comments on such complex and lengthy documents in a short amount of time and you did it.

I know this is a challenging project and I am very fortunate to have you in our team helping us maneuver it and all the challenges it brings.

Thank you!

Angeles

Subject: EPA's Comments on NV/ARC Deferral Documents

Greg,

Thanks for providing us an opportunity to review the NV/ARC Deferral Documents. Attached please find our comments.

Regards,

Angeles
