Hi ELizabeth,

so nice of you to suggest that. Thank you very much. I think that is wise as this way we won't get in the situation of using up the two renewals without having to do a full application after the one next year. Very good idea. Dr. Lewis apparently sent the signed approval form, please hold everything for beginning of July. We are not presenting to the community till July 11 so that should be alright.

Please confirm you have everything you need and I will put you on the calendar to remind you the beginning of July.

Thanks much for your kindness,

Rosemarie

Considering that your protocol expires on July 19, would you prefer for us to hold your renewal until the beginning of July to maximize your next one year approval period? Or would you like for us to process your renewal as soon as possible?

Just a reminder. I have had eye surgery and you were kind enough to state you would look it over to make sure everything is there please.

Thank you much

Hi Elizabeth,

you were kind enough to state you would look over my renewal application for our Ohio study because of still having poor vision from eye surgery. There is somewhat of a time urgency and I am sending it to Dr. Lewis for signature for the Approval form as well.

Thank you very much,

Rosemarie Bowler

To: Dr. Lewis,
Hi Julia, I enclose both the form for you to please sign and forward back to Elizabeth at ORSP. The renewal includes no new contact only a promised community presentation of our findings that will be prepared and presented on July 11 in East Liverpool, OH. The remainder of our work and EPA grant/contract is for further analyses and paper writing. Thank you very much. I wish you a very good summer!

warmly and with thanks for sending this over to Elizabeth at ORSP,
Rosemarie
