Hi Rosemarie,

Please send me the corrected file. I need to send through our communications office for approval. I also would like to send to Greg to make sure it satisfies his request.

Thanks,

Danelle

Hi Danelle,

thank you very much. Good as is. I changed the email and it fits now on one page.

One unrelated question, on the email going to the research group, I don't think we decided to send the guidelines to authors. Right? I will mention I will send guidelines before the conf call for anyone wishing to author an article.

Thanks much,

Rosemarie

Hi Rosemarie,

I almost forgot that we also need a letter to the editor to go to Marietta. This letter is coming from you, but or communications office needs to sign off on it. I looked again at the letter and took out any information that looked like results. I don't think we can communicate in a short letter to the editor the results, so I think the letter should focus on inviting them to the meeting or checking out the website. Can you take a look at this and edit? This is your letter so I want you to be comfortable with it. We can talk if you think something else should be done with this letter.

Thanks,

Danelle
