Time	Example Essential Elements of Information
07:00 08:00 08:30 09:15 09:30 09:40 09:50 10:00	1. OSC Dunkelman reports to the SEOC. I was at the SEOC yesterday 1/8 from 2:00 pm-7:00 pm. 2. Spoke with Ron Hyatt, Field Technician at Yerington Anaconda Mine site. They received 2.5 inches of rain. Fluid levels in the heap leach ponds are high but manageable. 3. Participated in call with EPA R9 EOC. Requested list of RMP facilities in Sparks Industrial Park. Also requested GIS assistance identifying locations of these and other facilities in Sparks Industrial Park. 4. Call to Bob Sack, Director Washoe County Environmental Health. No known hazmat issues. Viewed drone imagery of Truckee River and did not observe any releases. County personnel planning to accompany City of Sparks personnel to perform assessment of Sparks Industrial Park, which is currently underwater in some areas. 5. Call to Mike Algots. Union Pacific Railroad. Not aware of any significant issues related to rail lines or siding in Reno/Sparks. 6. Call to Steve Osborn, Kinder Morgan. Line rider is currently inspecting all Truckee River pipeline crossings on Section 55 between Reno and Fallon. Did not pump fuel over the weekend to Fallon, as NAS Fallon does not normally receive fuel on weekends. Pipeline is holding pressure. No known issues at NAS Fallon. Expect to resume pumping fuel to NAS Fallon today. Line rider is hoping to inspect pipeline between Reno and Truckee this afternoon but may be delayed due to fact that I80 is currently closed in Truckee. 7. Call to Jason Dunphy, USDOT Pipeline and Hazardous Materials Safety Administration (PHMSA). Currently inspecting pipeline east of Reno. No observed issues related to pipeline or any other hazmat. 8. National Weather Service Update/Conference call. Truckee River cresting now near Vista (Sparks) will continue cresting moving progressively to the East throughout the day. East Fork of Carson River on the way down as is Walker River. West Fork of Carson River still coming up slightly. Heavy snow/blizzard in mountains Tuesday/Wednesday. 5-6 feet of snow in mountains with ridge top winds up to 135 mph. Several inches of snow likely on valley floor in Reno, Carson City, Carson Valley. Weather should begin to clear Thursday morning.
