I'm having my update with Jared at 1:30 and will share this version or any other version you come up with before that time.

Enrique Manzanilla
Director, Superfund Division
US EPA Region 9 - Pacific Southwest
(415) 972 3843

Subject: FW: Yerington

As we discussed, Enrique would like to share a draft of this letter with Jared tomorrow morning. I think we should keep it simple:
1. thank him for agreeing to meet
2. reiterate that we have no reason to believe that his crops are impacted my site contamination 3. express that maintaining NV's Ag industry growth is a priority to EPA, hence the need to protect and cleanup the groundwater for future Ag use.
4. looking forward to the discussion and continue working with him to make sure the Ag industry isn't impacted by cleanup activities.

Does that makes sense? Let me know if you want to discuss further. ah

Sure thing. I think we have a letter or two from a few years ago that we can look at.
