I can ask them if they could meet again separately with you. This meeting next week is the one I mentioned to you with ARC and SPS. Do you have any constraints the week of 10/26?

Unfortunately I will be traveling back from DC next wed. Any way you could postponed your meeting to the following week so I can join you?

Please excuse my typos

Hi Angeles,

I think it would be much better to talk with City and County before you send the letter. I am meeting with them next Wednesday.

FYI: I just learned that we don't necessary need to start the tribal consultation NPL listing process before we send the letter to the Gov so we are thinking about postponing it until after we send the letter. Any thoughts on that? This will probably mean that we wouldn't consult with the city/county until after sending the letter either. Let me know if you like to discuss. Thanks. Have a good long weekend. Angeles

A minor correction, I just learned that November 11 is a federal holiday, veterans day so we will need to meet with ARC on Tuesday, 10/10 afternoon and drive back that night. We aren't allow to travel on federal holiday.

Updated.

Let me know if you have any changes.

I am working on our input to the Gov letter. We will need to be very much in synch with you on that.

Sure. I can make those changes.

I will probably add something in March that indicates potential due date for EPA and NDEP approval of design and that the April date is contingent on that.

I should also add that we would expect a draft design in January that we provide comments on and then final design in March.

Thanks Greg! I appreciate your prompt response. I think you captured our discussed changes well. I just have following two suggestions..

December 2015:

#3. in addition to the MOA, you may want to add as an option a Superfund Alternative approach in case ARC and SPS insist/change their mind regarding

getting EPA's covenants.

April 2016:

SPS evaporation pilot test commences in the field (with EPA and NDEP approval of design)?

Thanks,

Angeles

Updated based on our discussion. Please let me know if you have any other suggested changes.

I will work on state input regarding direction of site and alternative paths based on the EPA letter to Governor Guinn.

I also added an item 3 to December related to discussion of NDEP/EPA MOA pending outcome of state settlement negotiations.

Attached is the example letter I have for the site. Let me know if you have anything else that would be helpful.

Greg
