EPA and ARC are good on the past cost agreement and are just waiting to see if DOJ, which has to sign off on the agreement as well, has any concerns. We'll keep on them to make sure that they get this figured out promptly.

Kell advises the Administrator's office is looking at an Anaconda event in early February, but **before we check in with NV**, I need to speak with Tate Bennett.

Apart from the actions NV needs to take, could we be ready with our Deferral Agreement and our Past Cost Agreement?
