Already did. He's not on a deadline, but wants to be kept in the loop... I can probably hold until tomorrow. I think I should just call him vs sending him the statement - it's a bit more informal than our statement or if I do send something it should be less formal / shorter.

I can flag for Enrique. I think what we prepared should be ok, but I want to loop him in first. Can you check back to reporter to say we got his request?

I'm assuming we can send him what we have already prepared. Does Enrique know? This reporter definitely has a larger audience.

Subject: Nevada's Anaconda Site Question

Hi Mr. Blumenfeld,

My name is Noah Glick and I'm a reporter with KUNR, Reno Public Radio. I have been keeping an eye on the latest developments concerning the Anaconda Site in Yerrington, NV and wanted to follow up to see if you or any other EPA representatives were planning on visiting to meet with local stakeholders.

In the attached letter to Governor Sandoval, you mention that you "would like to personally meet with the Mason Valley farmers and agricultural interests in the beginning of March, 2016 to hear from them directly about how EPA can reduce the impacts of NPL listing on their business."

Has there been any follow up on this yet?

Please feel free to contact me anytime, either by email or you can call/text my cell at 415-672-1384.

Thanks!

Noah Glick
