,,,,,
Thanks for acknowledging receipt Harry. We will plan to distribute all the documents today or tomorrow am to the interested stakeholder group, acknowledging that EPA may still identify concerns.

Greg

Greg: You may not be surprised to hear that we will be unable to meet your requested 24-hour turn around for comments by COB today on these major site documents. I can confirm that we are fine with releasing the draft deferral agreement since the current version does satisfactorily reflect our conversations of late. NDEP can go ahead and decide on its own to release the other documents but, as you envision in your transmittal below, we may still identify concerns as part of our forthcoming full review. Angeles and Enrique are in Seattle today and have indicated that they can discuss the situation if you would like. Please contact Angeles directly on her cell phone if you would like to arrange a call. Regards, Harry

EPA and BLM Anaconda contacts,

Please find attached current versions of the following 7 documents:

1. NDEP EPA Deferral Agreement (redline and clean versions). This is the most current version as modified by Rick Perdomo today based on recent conversation with EPA Region 9 ORC.

2. NDEP ARC Framework Agreement. Although NDEP had previously discussed releasing an unsigned version of this document, we elected to sign. Note that NDEP and ARC commit to giving due consideration and input to all stakeholders with respect to final terms of the IAOC, and in the event of a conflict between the final IAOC and the Framework Agreement, the IAOC will control (see paragraph VI.D on page 15 of the Framework Agreement).

3. NDEP ARC Interim Administrative Order on Consent (IAOC). Note there is reference in the definition of Closure Management Unit (paragraph 15.i) to a Site map depicting CMUs. This map is included as Figure 2 in the RIFS Scope of Work. Also included are the following Attachments/Appendices to the IAOC

a. RIFS Scope of Work

b. RDRA Scope of Work

c. FMS Workplan. The supporting O&M manuals and Appendices to the FMS Workplan are available from Jeff Collins or Jeryl Gardner upon request)

Please note some text in the documents is italicized reflecting the fact that these items are still under active discussion and may be more likely subject to change. Also, please review

both the redline and clean versions of the Deferral Agreement as there are some notes and comments in the redline version that are not in the clean version.

NDEP requests EPA and BLM initial review of these 6 documents and flagging of any major concerns by Wednesday, June 14, COB. NDEP recognizes that additional, potentially significant concerns may be identified by EPA and BLM after June 14.

We plan to issue these to interested stakeholders on Thursday, June 15, in preparation for our June 27 roundtable.

Thank you,

Greg
