;;;
Good Morning Dante,

It was a pleasure speaking to you on Friday June 05, 2015, sharing the plans for the Anaconda Mine Superfund site.

I have a request this morning. Can you via email confirm our proposed meeting of the June 29th meeting so I have that documented and for my records?!.

I will proceed on with preparations to share this with our staff who may be interested. In addition, I have informed the Chairman, Vice Chairman and Tribal Council members.

I look forward to our meeting at the end of this month which is going by quickly.

Best,

Cynthia O.

Hi Cynthia,

My name is Dante Rodriguez and I am one of the U.S. EPA project managers for the Anaconda Yerington Mine Superfund Site. I was given your name by my teammate Dave Seter. I wanted to connect with you and provide you with information regarding a new investigation that we are opening up, the Wabuska Drain investigation. I would like to keep you informed on an ongoing basis.

Give me a call when you have a chance, and I can start bringing you up to speed on the Wabuska Drain investigation. In addition, I will be up at Walker River at the end of June and would like to take the opportunity to meet you in person and spent time further discussing site activities. Thank you for your involvement, and I look forward to meeting you.

Dante Rodriguez

Remedial Project Manager
