Hey Dante,

Do you have an update for us on the Enhanced Evap approval from Angeles?

Thanks,

Jeryl

Hi Dante,

Did you get the “approval” from Angeles today?

Thanks,

Jeryl

I was telling Jack last night that I reviewed the information with Harry and Dave, they concurred, and I sent a memo to Angeles. The update today is that she is going to speak with Greg about it on their weekly call tomorrow. We are impressing the urgency upon her.

Hey Dante,

Any word on approval today?

Thanks,
Jeryl

Hey Jack,

I am working my way through the tech memo and Ken Greene is as well. I will be done today or tomorrow, and Ken's guy will be done with his review by Friday. Let's say I'll be able to give you our technical opinion by end of the day Friday. I'm thinking I can give you the preliminary OK then, assuming we agree with your technical analysis, and you could begin preliminary preparation while I work through my management to get the final ok. How does that sound?

Subject: Yerington Enhanced Evaporation

Dante,

Any word on when EPA plans to give the go-ahead on the enhanced evaporation at Yerington?

We are on hold pending EPA approval, but my consultants are chomping at the bit to get started to take the most advantage of this warm weather we are having.

Any updates are appreciated.

Thanks,

-jack
