U.S. Navy Types

In accordance with Secretary of the Navy directive 26 September 1952 the types of U.S. Naval Vessels and Service Craft are arranged alphabetically in the "Naval Vessel Register." (See "Nomenclature" Page 10 for types included in each category.) Data relating to Small Landing Craft and Landing Vehicles are not included in the "Naval Vessel Register," however, the designations are listed on page 10 for reference.

The number of letters in this column is limited to nineteen. Abbreviations are used where the number exceeds this figure. Former type and miscellaneous pertinent data is included in this column.

Stricken

Vessels marked "S" in this column are those which have been stricken from the List of U. S. Navy Vessels and Service Craft. These vessels are not included in the net count of vessels of each type on hand.

The classes of active, reserve, vessels building, loaned and to be loaned (not stricken), Naval Reserve Training Vessels and Military Sea Transportation Service vessels - Navy Crews, are shown by a one-letter code.
