Thanks, Tim! There's probably nothing that can be done at this point, but I just want to point out that there's incorrect information on pages 13 and 14 in the I-70 East Project's status section. It states that we'll be issuing a new FEIS for public review prior to the ROD, which is not correct. We will be issuing the draft conformity determination for public review prior to the ROD. I know that you know that since we've been coordinating, but still wanted to point it out since I'm sure it's going to come back at us at some point. Thanks again for passing this along!

Hi Chris and Vanessa,

You may have already seen this, but in case not; our subject Brief, regarding EPA's November, 2015 PM Hot-spot modeling guidance, was filed with the Court on Monday the 12th. You'll see a number of references to the I-70 East project in the Brief.

Thanks!

Tim
