Yay! That is great news. Yes, by all means let me know when the virtual ink is dry. I will not wait until next week's update to pass this one up to the IOAA.

Importance: High

Hi Yvonne,

As a follow up to our conversations while Patti was out regarding the Water Gen CRADA, I wanted to let you know that OGC has concurred and it is in the signature process.

Since we now accept scanned signatures, and since both parties are eager to sign this, I would hope that it would be signed today or tomorrow depending on how quickly the lab gets it signed and receipt in Israel with the time change.

We will continue to keep you posted on this effort and let you know when the signatures are complete and the agreement is active.

Please let us know if you need anything else from us.

Sarah

Hi Ardra,

OGC has concurred on the CRADA with WaterGen and it is ready for signature. We can now accept scanned signatures. However please be sure that all scanned copies are clear and that a final signed version is sent to the FTTA staff.

Please let us know if you have any questions.

Thanks everyone for all of your efforts.

OK! We need to get this signed by the NERL Director and get it to their attorney, Travis Lucas, ASAP.

Here are the latest versions I have – dated Nov. 15. If updates to the SOW have been made since Nov. 15, please make sure I see that version before it goes to signature. I promise an immediate turn around.

Here is Travis Lucas' contact info:

Ms. Scalise:

I am counsel for Water-Gen, LLC (Ed Russo and Yehuda Kaploun).
