Subject: Water Gen MTA and NDA (and CRADA)
Water Gen MTA MARKED 140917 ls + gc 150917.docx
NDA with Water Gen gc mark up 9.14 gc ls.docx
Water Gen CRADA 2017-07-14 (003) ls.docx

Hi folks. Attached are the MTA and NDA with mark-ups made by me and Geoff Cooper. I've also attached the draft CRADA for comment.

Ardra, Jay, Chris and Yehuda - On page 2 of the MTA, there is a section I want the lab and Yehuda to see. The paragraph goes on about EPA not being able to open the unit, etc… The restrictions here are very tight. I made a comment about wondering if the lab will need to look at the inside of the unit – "take a look under the hood," if you will. This is a call best made by the technical people – the Lab and Yehuda and whoever else will be coming to Cincinnati from Water Gen.

So, please, if someone from the Lab and if Yehuda and/or one of his technical people want to make a judgement call on this paragraph, I'd appreciate it.

Hi Liat – Geoff and I have made several comments and a handful of edits. The thing I hate most about Track Changes is that it notes every time I highlight or make some other formatting click. I've highlighted in gray or yellow the sections that I think belong in the CRADA – and in one place, in the NDA.

Please do what you need to get through the Track Changes jumble to see our comments and edits. After today, I'm out of the office for two weeks, and I return to the office October 2. If we need a conference call to hash out these clauses one by one, I'm good with that. Feel free to schedule something for my return to the office.

Finally, I've attached the draft CRADA for your review and comment. We can go over this document, as well, when I get back.

Please contact Geoff in my absence over the next two weeks. His email appears above. In a pinch, he knows how to reach me.
