1/15/2016 - Mtg w/ DEC + DOH

POETS systems -
2 installed - others being worked on by private co's
Stewarts did it on its own

POVs for indiv. residences
DOH tested one system
it worked on one residence
must be used correctly
can reduce level -
how much + for how long

at 20 ppt - you know → there -
below this is not as a reliable indicator

Funding - eligible for low int. SRF, but not
0 int. or grants through SRF

State Parks concerned about the pool + DOH
looking at this

Bottled water -
reg. of bottled water but do not look at PFOA
Know all of the bottlers

Bioaccumulation issue - we need to get that straight
PFOA
PFOS - more of a bioaccumulator

ch
ums
l confirm

Need an answer on fish consumption / sampling
Water + sediment samples will inform the pot.
contam. of fish

Hoosick R - 1 sample next to well field - no exceedance
Walter - should sample dx from STP

Junction box near where 18,000 sample was taken
on St Gobain prop (on border of vill. prop.)

contam. of fish [redacted]

Hoosick R - 1 sample next to well field - no exceedance
Walter - should sample [redacted]

Ju[redacted]
on St Gobain prop (on border of [redacted]

- Smell of burning plastics
  Jim Quinn - R4
  R4 s/look at permits & see, if any odor issues can be addressed
  - may not have rec'd odor complaints
  - but my Teflon facility will have odors
  - summertime was the concern
(*) get name of the resident / EPA will get name
  TDEC will follow up

- Biomonitoring schedule -

Betsy - NYSDOH
no funds or resources for this project, but lab will assist

lab needs to analyze batches for best results

early Feb - out

protocol has been approved
will have to work through how may to sample

Gene - Cost recovery - state has its own claim
& both costs may be recoverable

Listing of PFOA as a haz. substance?

Walter - not a haz subst under Superfund
but is a pollutant or contaminant
so can be listed

Ex. 5
Deliberative
Process

[redacted]

Gene - can recover a cost for abating a public nuisance

Walter - Cost recovery for EPA goes to general treasury

Gene - PFOA nationally -

Paul - UCMR3 data -
not commonly found
did not
(*) Confirm that data

(*) Walter - ASDWA looking at this? — Roger to do this

W Va, Ohio, NJ

Gene - mine that data & draw those conclusions

(*) Any other sites nationwide that was listed on NPL on basis of a poll. or contam. & not a haz. subst? / Walter

Plattsburgh AFB -
(*) PFOA or PFOS? (clarify) / Angela

Gene - TSCA auth.

DOH Private well sampling -
worked through all protocols
spring - sampled 8 private wells (incl. school)
4 < 400

informed those res. & followed up

Nov. sampling (10)
Jan sampling (6)
may have results by Tues. (maybe today)

Lloyd Wilson -
discussion of mapping -

well closest to R have lower concentrations
(*) other wells added later - away from R. (2008)
& geology may have changed

(*) ask Arlene about confidentiality of residences

(*) DEC to provide info on the non-landfill
↓ R4

Communications between/among agencies
Judith - set up weekly calls, more or less
as needed - to share tech. info.

Basil - keep it at a high level weekly

discussion of com/pub protocols
(**) EPA will convene ~~the~~ first call next week
Natrum - agenda day in advance

Tech. calls & exec. calls
Angela Carpenter - EPA
Kristin Anderson DOH
Bob Schick DEC

Exec call at end of Jan
(1/28 → Basil's hearing)
confirm?

John Emery - DOH "PAD"
Emily Delantis - DEC
James Plastiras - DOH
