Yes, let's make sure they are on both the I drive and SharePoint. You can delete the older versions from SharePoint.

Thanks,

Claudia

These are the most up to date cost analysis and emissions reduction spreadsheets with all comments and meta data removed.

Claudia, should I upload these to SP?

Emissions reduction sheets as well? Or just the cost analysis?

Yes. There are comments that need to be removed before they are published. I can make a clean set now if that is helpful.

Before I do that, Aaron, are you aware of any information or comments in the spreadsheets on the SharePoint that we would be making sure are removed before loading them to FDMS at the time of proposal and making them available to the public?

Thanks,

Claudia

Chris and Claudia

Ex. 5 - Deliberative Process how long would it take to pull together?

Janet will be talking to OMB soon so it would be good for her to know where we are at on this additional request.

Aaron,

Please find attached EPA's responses to the November 10, 2016, interagency comments in response to EPA's most recent submittal under EO 12866 and 13563 on the EPA proposed rule entitled, "Federal Implementation Plan for Existing Oil and Natural Gas Sources; Uintah and Ouray Indian Reservation in Utah" (RIN 2008-AA02). EPA's responses are provided as responses to both the general and specific inline comments in the draft Regulatory Impact Analysis and in the separate document with additional interagency comments. I have also attached a redline strikeout version of the draft proposed FIP containing revisions made in response to certain interagency comments.

Please let me know if you have any comments or questions.
