* Reported TCE analytical results for water samples analyzed prior to 1989 are of questionable quality due to inadequate quality assurance procedures in place at the analytical laboratory at that time.
Analytical Results in ug/L
Refer to Tables 6-2 through 6-4 and 6-6 through 6-8 for Explanation of Data Qualifers
Note: Analytical results are presented only for samples in which TCE was detected, except for samples collected in 6/94 which were analyzed at both the field and fixed laboratories.
