Final Notice and Public Explanation of a Proposed Acquisition of the 1100-year Floodplain Revision

To All Interested Agencies, Groups and Individuals

This is to give notice of the revision to the New Orleans Redevelopment Authority (NORA) Final Notice and Public Explanation of a Proposed Acquisition of the 1100-year Floodplain published on March 17, 2017. NORA has conducted an evaluation to reconsider the Executive Orders 11988 and 11990 in accordance with HUD regulations at 24 CFR 55.20 to determine the potential effect that the activity in the floodplain will have on the environment. The proposed project, the acquisition and housing construction will be located at 2135 Andry Street in New Orleans, Louisiana. All activities are to be performed on existing developed residential properties.

NORA has considered the following alternatives and mitigation measures to be taken to minimize adverse impacts and to restore and preserve natural beneficial values:

1. Alternative site locations outside of the proposed floodplain will be considered.
2. Proposed action includes repair of existing facilities and will not have a significant impact on the floodplain.
3. All rehabilitation activities must conform to the local floodplain and building requirements.

There are three primary purposes for this notice. Each people who may be affected by activities in floodplains and those who have an interest in the protection of the natural environment should be given an opportunity to express their concerns and provide information about these areas. Second, an adequate public notice program can be an important public educational tool. The dissemination of information and request for public comment about floodplains and floodplain and wetland Federal efforts to reduce the risks and impacts associated with the occurrence and modification of these special areas. Third, as a matter of fairness, when the Federal government determines it will participate in actions taking place in floodplains, it must inform those who may be put at greater or continued risk.

Written comments must be received by New Orleans Redevelopment Authority at the following address on or before May 19th, 2017, 1409 Gretna Blvd, New Orleans, Louisiana 70113 Attn: Kelly Chauvin. A full description of the project may also be reviewed from two to four at NORA 1409 Gretna Blvd, Kelly Blvd, New Orleans, Louisiana 70113. Comments may also be submitted via email at [illegible]
