Subject: RE: State CZMP Consistency Determination

Good afternoon, Isaac—

The proposed re-issue of GMG 290000 is an action subject to consistency review by this Program. Since you sent a copy of the draft permit along, the only additional information we need is a statement that EPA will conduct the proposed activity in a manner consistent to the maximum extent practicable with the enforceable policies of the Louisiana Coastal Resources Program.

If available, it would be helpful to have a summary of the changes to the permit from the previous re-issue.

Thanks, and please call or write if there are questions,

--Jeff

Subject: State CZMP Consistency Determination

Hi, Jay,

This is Isaac from EPA 6. I am working on final permit for the Outer Continental Shelf Oil/Gas GP (GMG290000). This GP authorizes/regulates discharges from oil/gas facilities to the waters of US beyond 3 miles from TX and LA coastal lines. I think this permitting action has no effect to LA CZMP. But, like to confirm with you whether I shall send a request to DNR for CZMP consistency review or not. If I do need to, whom shall my request address to? Attached please find a copy of the proposed permit. Thanks.
