Yes, it's the final approval of the OK CCR permit program – due June 18. We'll also have at that time a final "phase 1, part 1" CCR rule to sign that is focused on a couple high priority changes, including deadlines triggering closure. Copying Steven as this is an OLEM rule. Thanks!

Subject: CCR/CEC - OKC

We are putting together our press plan for the CEC conference the Admin is hosting in OKC June 26-27. In one of the recent planning meetings someone mentioned doing a CCR announcement with OK DEQ. Is this still an option for the Monday prior to the conference?

If so – what is it we would be announcing?

Thanks,
Lincoln
