Subject American Agri-Women Meeting
Location Rachael Carson -- Green Room
Show Time As Busy

Hello all,

On June 5th a large contingent from the American Agri-Women organization will be here to discuss a wide variety of ag topics including: Air, Water, Superfund, Pesticides, and EPA/USDA coordination. Our agenda for the meeting is attached to this invite. We have reserved the Green Room for this key stakeholder meeting and look forward to seeing you all there on June 5th. No formal presentations are needed, rather we suggest you prepare some brief, high-level talking points to share, then field questions from the group.

If you have any questions, please reach out.

Best regards,

Tom Brennan
Acting Associate Administrator
Office of Public Engagement and Environmental Education

Here is a list of topics of interest from the American Agri-Women leadership team:

* Status of WOTUS (yes, president signed the repeal, but it is still in court)
* Pesticide registrations and reviews (i.e. atrazine, glyphosate, and the seed-related product equality or something – that got pulled seemingly arbitrarily in the fall after it had been given the all clear by EPA earlier)
* Nutrient standards for water – voluntary, regulated?
* Clean air regulations – state of play for emissions regs. on coal-fired generating units; movement on greenhouse gases
* General approach to agriculture

* Who is the liaison from USDA to the EPA on regulatory issues as required in the 2014 farm bill
* State of superfund (CERCLA) and brownfield cleanups and funding

Mike, Dan, Please invite others as appropriate. It sounds like they want to begin to register things in the US. They seem particularly concerned with "OPPTS guidelines."

_____

From Andrea Rodrigues - A little bit about our Company:
IHARA http://www.ihara.com.br/en/ <http://www.ihara.com.br/en/>
IHARA operates in the crop protection market for over 50 years. The company has a robust and differentiated portfolio such as: fungicides, herbicides, insecticides and special products. More than 60 products that contribute to the progress and the competitiveness of Brazilian agriculture.
Our effort goes beyond just taking solutions to the rural producer. We invest heavily in research and development in order to help them to obtain better productivity with the highest sustainable quality.
Our sales team is highly technical and qualified to offer all the necessary support by being present throughout the cultivation process attending the farmer, the reason of our existence.
HARA brings the best in Japanese technology for the control of several pests and diseases concerning the field.
We produce here and improve to the Brazilian climate the best solutions to meet the demands and

needs of the crops in the country.
We have 230 hectares of total area and 50 thousand square meters of construction, 466 thousand square meters of legal reserve and 316 thousand square meters of permanent preservation.

Ihara annually invests 20 million dollars in its facilities, expanding and automating its production area. This steady growth aims to pioneering technologies that offer security, high quality and sustainable development.

Our Research Center has 330.524m² area for cultivation, testing and product testing. This work promotes research and development of new molecules with the highest standard and compliance. We are a Japanese Company - only Japanese Agrochemical Companies as Shareholders.

Subject: Meeting with USEPA
Importance: High

Dear Dr. Richard,

I hope you're doing fine.

I am Mrs. Andrea Rodrigues from Brazil and I work for a Japanese Agrochemical Company in Brazil. We have agrochemical business in US through Japanese companies with HQ in some places in US.

We (IHARA from BRAZIL) would like to schedule a meeting with USEPA, specially from Registration Division, Data requirement and OPPTS guidelines to discuss a little bit about USEPA regulation/Registration including discussion about Guidelines (OPPTS).

This meeting would be very helpful for my company to improve business in USEPA acquiring more knowledge about your Regulation system.

Do you think is possible to have this meeting? To whom should I send this email inside USEPA? Please, could you help me with this meeting?

Let me know in case of any doubt.

Thank you very much in advance.

With Best Regards

Subject Registration Session: OPP/OECA National Meeting
Location PYS-7100
Show Time As Busy

Cindy Wire/Jackie Mosby would like to reserve time on Rick's calendar during the June national meeting in case they do another registration session – Cindy thinks the regions will want to hold this session once again.

Hi Rick,

I think you know this topic much better than I do. The regions will want to know what happened at the Pesticides Regulatory Reform Meeting (who asked for what and if there were any surprises), and what regs are being considered for elimination.

The regions will also want to get your perspective on what's ahead – even though that's not part of the session topic necessarily. They will also want to know how the program will change under our new leadership.

If needed, you could ask the regions:
1. Are there any specific registration-related issues they would like to see OPP address in the year ahead?
2. What FIFRA-related issue will be their biggest regional challenge this coming year (other than resources?)

Subject: checkin & visit

Rick,

I'd like to bring a small group over to see you the morning of June 8. Our Regulatory Affairs Committee meets the day before and the leadership of the committee, plus a few others, would like to sit with you for a discussion. Many of your colleagues within OPP have met with us which is very valuable and now we'd like to start having more strategic leadership discussions as well. This committee within RISE has been growing well and benefitted from some new volunteer leadership. Meeting with you is the logical next step for them and I know you'll have a thoughtful and mutually beneficial conversation. Will you please let me know a good time for us to come over the morning of June 8?

Thank you sir. Look forward to your college report. We had a cub scout campout this weekend, so quite a few years before we do college visits!

Sincerely,

Aaron Hobbs

Email message from the Almond Board of California:
A small group of folks from the California Almond industry will be in town and we hoped to meet with OPP folks the afternoon of Thursday, June 8. We likely need 1.5- 2 hours, just because of the size of the groups. Focus for the meeting includes:
* updates on various compounds in registration review,
* follow up on the antibiotic conversation from end of January,
* a sense of where OPP sees budget and regulatory priority changes taking OPP (realize is a bit crystal ball...),
* the importance of work with international pesticide setting bodies.
* If OPP thought is useful, we could briefly talk about various Almond Board efforts in research and sustainability that relate to pest management.

In terms of registration review, I must admit I am not sure where all various compounds important to almonds stand but we recently submitted comments on the pyrethroid assessments, triazines (simazine), spinosad/spinetoram, and copper; the post-harvest fumigants (phosphine/aluminum phosphide, sulfuryl fluoride, propylene oxide) are in process, etc. My thinking is it may be a good opportunity for EPA staff to ask some questions about usage of relevant compounds in almonds – so may be compounds that are currently being struggled with where some insights in usage would be useful.

Almond industry attendees include:
* Holly King, Kent Stenderup – both almond growers
* Martin Pohl, Micah Zeff – both almond handlers
* Kelly Covello – The Almond Alliance
* Julie Adams, Gabriele Ludwig, Richard Waycott – Almond Board of California

Subject: RE: Sec 3 Registration for Mosquitos

Nancy,

Many thanks for your time this week, and for the time that you put into coming up to speed on this very complex matter.

We are very pleased to hear that OPP has confirmed that we can submit a Section 3 application before the transfer of jurisdiction, and we have started ramping up the resources to complete our Section 3 application as soon as possible.

As we discussed the other day, this process has become quite complicated, with a number of different aspects of it with different agencies, and a number of possible regulatory outcomes. Before we focus all of our efforts on the Section 3 application, I'd like to confirm a couple of key points that are crucial to ensure that we are able to release OX513A males in the summer of 2017. First, that FDA will finalize the guidance to transfer jurisdiction to EPA as soon as possible. As I believe I mentioned on Thursday, OGC has taken the position that EPA cannot issue a Section 3 registration until jurisdiction has formally transferred from FDA (which, as a legal matter, I believe is correct). Therefore, that transfer should take place as soon as possible. FDA has essentially been waiting on Dr. Gottlieb to be confirmed before moving on this action. It is my understanding that once the FDA staff has his concurrence the transfer can be effected almost immediately. Second, that OPP is prepared not only to accept a Section 3 application, but will diligently proceed to evaluate it expeditiously and be in a position to render a decision in time to enable 2017 releases. As we discussed, there is a substantial body of data available that demonstrates the safety and efficacy of OX513A, and I fully believe that these data are sufficient for purposes of a registration. We have previously been told by BPPD that new toxicity data must be submitted to qualify for a registration. As I noted, I have been reviewing, defending, and issuing pesticide registrations since the 1990s, I do not believe that the new data are necessary for the registration – given the substantial existing database on the safety and efficacy of OX513A. We are developing these data, and we would be pleased to submit them post approval, i.e., we would be pleased to accept a conditional registration with the understanding that the data will be submitted within any reasonable time frame that EPA sets. The new data are not necessary, however, to meet the FIFRA standard and register OX513A now.

It is my understanding that this is where Thursday's meeting came out. Before we reach out to Rick and BPPD, however, to discuss the details of developing and submitting the Section 3, I wanted to confirm this understanding.

Please feel free to contact me at the number below, or on my cell phone Personal Cell Number / Ex. 6 any time that is convenient for you.

Again, many thanks for your attention to this matter.

Best,

Keith

Subject: Sec 3 Registration for Mosquitos

Tom, Roy, and Keith,

It was a pleasure to meet you all today (and yesterday). The work you are doing is fascinating to me, not to mention the large potential public health significance.

I've checked with Rick Keigwin, the Acting Director of our Pesticides office, and he has confirmed that you can indeed submit the registration request, and begin the process, before the authority is transferred from FDA to EPA. Rick is cc'd above if you have any specific questions about how to make this happen. I'm sure his staff can provide assistance.

Regards,

Nancy

Subject: Update on VERA/VSIP Opportunities

Dear Colleagues,

On June 1, 2017, I announced that the agency had begun a workforce reshaping effort in which headquarters and regional offices were reviewing their current organizations and analyzing where they can achieve efficiencies. On June 16, 2017, the agency submitted its draft request to the Office of Personnel Management and the Office of Management and Budget to use VERA (also known as early-out) and VSIP (also known as buy-out) where it makes sense and where it is aligned with these efficiencies.

Our agency-wide business case for VERA/VISIP reflects multiple factors, including increasing the staff to supervisor ratio; consolidating and streamlining functions; restructuring or reducing highly graded supervisory and non-supervisory positions; and focusing on core business functions, programmatic and STEM (science, technology, engineering and mathematics) priorities.

We expect to hear from OPM and OMB on our request by late June. In the interim, agency management will share with employees information on the grades, occupational series, and geographic locations within their organization that are included in the VERA and VSIP request. We expect a limited number of employees will be offered VERA/VSIP, and those who accept a VERA/VSIP offer must leave the agency by early September. The decision to take advantage of a VERA or VSIP is entirely voluntary.

Throughout this process, we will be working with our union partners. We will provide more details as they become available. Thank you again for your support as we work through this together.

Mike Flynn

Subject: Meeting with House Appropriations Staffer (Jason Gray)

Hi everyone,

Ed Walsh has asked us to meet with Jason Gray on Thursday, June 22nd from 2:30 – 3:30. Jason would like to discuss:

OCSPP
* Pesticide fees (new FY18 proposal)
* TSCA implementation & fee language
Since Jason is meeting with many other programs in the Agency, Ed is trying to consolidate the meetings among NPMs which is why we will have OPP and OPPT at the same meeting to discuss their respective topics. The meetings will take place in the CFO's office on the 4th floor of the Ariel Rios North. I'm not sure if Ed will send a meeting invite, so please use this to hold the time on your calendars.

Thanks,

Bruce Berkley

Hello Everyone,

Thank you for coming together on this day to celebrate the career of Debbie McCall as we send her off into retirement!

The conference room #4340 has been reserved for our SURPRISE pizza party luncheon for her. As Debbie has requested for only a small gathering if anything, that is what we plan on giving her so please keep these plans as quiet as possible. Even she doesn't know about the specifics!

Lunch will be: We the Pizza, Veggie/Fruit Trays, Cookies/Cake, Chips, and Soda

Suggested Donation: $5 to me in my cube 7835

Please let me know if you have any questions about this event!

We hope you can join us!

Subject AGCO: New Nozzle Technology
Location PYS-12100
Show Time As Busy

Adding the agenda:
* Introductions
* Brief discussion on the nozzle development work the company has been doing for the last few years
* Technology background
* Comparison to conventional spray tips
* Benefits in improving on target application
* Discussion on the best way to get nozzle technology onto pesticide labels

* Understanding EPA and registrant performance and testing expectations for new technology
* How can the company, as an application equipment manufacturer, help EPA with other application topics of concern

Hi All, This meeting has to be moved to 4pm today. These AGCO reps are looking to demonstrate to as many DRT involved staff as possible, so if there are others you think would be interested, please invite them.

Quick update as to AGCO attendees: In addition to the two AGCO officials (Darren Goebel, AGCO Global Commercial Director – Cropcare <http://agcocropcare.com/> and David Batcheller, AGCO's Joint Venture - Intelligent Agricultural Solutions <http://www.intelligentag.com/> (IAS)) and myself (Richard Gupton) so a total of 3 attendees.
They are also supposed to send over an agenda prior to the meeting.

Subject: Meeting Request for AGCO officials for either June 27, 28, or 29

Rick / Jackie

AGCO, an agricultural equipment manufacturer and member of ARA, is interested in meeting with EPA officials to discuss new nozzle technology they are developing that may impact current pesticide labeling. Would both of you and perhaps other EPA officials that have oversight of this type of issue within the Office of Pesticide Programs be available to meet on either Tuesday, June 27; Wednesday, June 28; or Thursday, June 29? The two AGCO officials that would be attending include Darren Goebel, AGCO Global Commercial Director – Cropcare <http://agcocropcare.com/> and David Batcheller, AGCO's Joint Venture - Intelligent Agricultural Solutions <http://www.intelligentag.com/> (IAS). ARA staff would also likely be in attendance.

Thank you for your review and consideration of this meeting request! Let me know if you have any questions or need additional information.

Best regards,

Richard

Hi Shannon – Per Delores Barber, Rick and Arnold would like to schedule an Awards Board meeting. Please let me know the date you can schedule the awards board in June. The week of June 26th would be okay. At this time, the only participants will be Rick, Arnold, and Amer Al-Mudallal (NTEU union rep). As soon as I have a name for the AFGE union rep I will send it to you. Please be advised

that I need a date for the Awards Board before I can request an AFGE union rep. to participate as a panelist. If you have any questions, please let me know. Thanks. Pam

7/6/17 Update: attaching sign-in sheet showing meeting attendees.

5/30 Update: Added Vickie Richardson and Mike Burns as addressees per Barbara Cunningham.

Every year, the OIG's Office of Program Evaluation (OPE) meets with each program office to get feedback on the utility of its audits and the audit process.

At this year's OPE meeting, it was suggested that a similar meeting with the Office of Audit (OA) would be valuable. The AIG for OA has agreed to meet with OCSPP and OPP's financial managers. Attached is the presentation done by OPE, for those who were not participants in that meeting. Please feel free to provide your thoughts on the Proposed Agenda, below.

Proposed Agenda:

1. Introductions

2. OA overview: Mission, Values, Organization, Role, Sources of Work, Quality Control System, etc.

3. Feedback and general discussion: best practices and improving interactions

4. Action items and next steps

OMB Guest: The EPA staff will meet you in the East lobby before the meeting.

Agenda:

(subject to change and/or additions)

-Introductions – 5 min

-What are the most recent happenings in EDSP (snapshot of current FY and any major activities or status updates relevant from previous FY)? – 15min

-What ORD activities have occurred recently in support of the EDSP (current FY, mainly)? – 5 min

-What are EPA's planned activities to ensure a smooth transition of EDSP work to OPP (and what is the role of OW?) if FY18 PB passes as proposed? – 10 min

Note: Please include a discussion of how the ORD research will be affected? If the research on endocrine disrupting chemicals continues, will the focus change?

-If Congress appropriates funding for EDSP, what are EPA's FY2018 plans for the program (and the research)? – 20 min

Note: This item should include a discussion of the performance, strategy for continuing to advance HTP tools and methods, and possible updates to program structure.

-Next Steps: Discuss merits of a deep-dive review, including formulation of options – 5 min

Due to the unprecedented amount of complaints, many states are resource strapped. Has EPA considered looking at extending some financial help? Many states have blown up there budgets and I believe it would be difficult if not impossible to investigate all of the complaints in an adequate fashion. Has the Regions offered any help, personnel or otherwise to the states?
I am sitting on the Dicamba call right now. I think the majority of drift issues are going unreported due to applicator fears of losing the product. I understand we are still trying to figure out the science after the fact of registration, but we have a serious issue with the states being able to respond.

Would like to know what the thoughts are and further this discussion with you.

Dicamba: Meeting with State Lead Agencies (AAPCO/SFIREG)

August 2, 2017

Agenda

I. Meeting Introductions (OPP)

II. Meeting Format (OPP/RD)

III. Input on Dicamba Incidents: EPA is soliciting feedback from State Lead Agencies focusing on information that could help remedy the unacceptable dicamba incidents in the field. The following questions will be used to focus the discussion:

1. What is the progress on the investigations in your state? What have you learned from these investigations? What is your read on compliance?

2. What regulatory changes have been implemented in your state for the 2017 growing season? What worked? What did not?

3. Based on the leading causes, and information you have received, so far, what approaches does your state recommend to fix the problem?

IV. Available Data

V. Additional Discussion and Questions (time permitting)

VI. Closing Remarks/next steps

All,

Keith Sappington will not be able to make it to the meeting. His comments are:

"I disagree on conclusions regarding EFED not having a process and guidance for reviewing guideline and non-guideline studies. Our DER process is quite well established and involves primary, secondary and tertiary (sometimes) reviews. As I indicated in my response to OIG questions, non-guideline studies are often evaluated according to an approved protocol.

OIG also seems to think that study requirements in 40 CFR 158 are an absolute requirement. My understanding is that we can decide not to require submission of a study if we think we have enough data already and /or it is highly unlikely to add value to the assessment. OGC would be able to comment more on this.

Best,

Keith"

Thank you,

Connie Hernandez

Subject Populate Draft Agenda for 2017 NAFTA TWG Meeting
Location DCRoomPYS7100/Potomac-Yard-One
Show Time As Busy

Colleagues,

Please see attached draft agendas, registration form, and overview of proposed field trips for the NOV NAFTA meeting.

Day 1:

* Government Only Session – half-day morning

* Stakeholder-Government Session – half-day afternoon

Day 2:

* Workshop

Day 3:

* Government Only Session – half-day morning

* Proposals for Field Trip – half-day afternoon (government and industry invited)

OPP Meeting Agenda

1. Review agenda topics for all 3 sessions (Govt only and Stakeholder-Govt)

a. Will share US updates/suggestions with MEX and CAN this week

2. Decide who will be presenting

a. Need to specify deadlines for presentations and briefing papers (I would suggest no later than 08 SEPT)

i. Briefing papers should be about 1-2 pages and provides an overview of the topics being presented

ii. Both presentations and papers need to be sent in enough advance so Mexico and Canada can translate to Spanish and French

3. Review the Workshop agenda:

a. Are topics sufficient?
b. Will US be presenting?
c. Who should be invited?

4. Mexico wants to know preference for touring a lab facility or a farm after the last day wraps up (open to government and industry

a. Field Tour, Group U
b. Center for Research and Advanced Studies of the National Polytechnic Institute (CINVESTAV-IPN)

5. Share list of those traveling to Mexico with group

a. Take ~8-9 hours to reach destination (suggest leaving on Monday, 06 NOV and return Friday, 10 NOV)

i. FYI...Return date is a Federal Holiday

6. Meeting Registration forms due before 31 OCT 2017 (attached)

Subject: Seeking SES Rotational Assignment

Hello Mr. Keigwin,

My name is Dr. Hayley Hughes, and I am a candidate in the U.S. Environmental Protection Agency Senior Executive Service Candidate Development Program (SES CDP). My colleague, Ms. Martha Shimkin, forwarded me your email regarding a potential SES rotational opportunity within the Office of Pesticide Programs (OPP). I am currently seeking an SES rotation (120-days) and am very interested in a position within EPA.

The OPP is of particular interest because of my experience and educational background in occupational and environmental health, including my previous experience as the co-chair of the 2005-2006 DoD Biomonitoring Workgroup for low-level nerve agent and cholinesterase-inhibiting pesticide exposures. A rotational assignment in OPP also interests me because of the cross-cutting issues and complexity of pesticides, which is demonstrated by the nine OPP divisions. Because of the broad mission of OPP and the life cycle and many uses of pesticides, an SES rotation in OPP will potentially provide me with an excellent opportunity to enhance my strategic thinking in developing organizational goals and performance measures, increase my political savvy by recognizing opportunities and strengthening skills to build coalitions and enhance partnerships, and build by skills for managing human capital and reducing conflict.

I have attached my resume for your review, and if the qualities and experiences reflected in my resume might enhance the OPP's organizational mission and strategic goals while allowing me the

opportunity to complete a developmental assignment, I will be pleased to make myself available for an interview to describe my capabilities as a fit for your organization. Thank you for your consideration.

I look forward to hearing from you.

Best regards,
Hayley

Subject RESCHEDULE - Methyl Bromide (MeBr) Task Force Meeting (APHIS, ISDA, Idaho DEQ, EPA)
Location Conference Line/Code / Ex. 6
Show Time As Busy

Rick, Mike and Dan,

The MeBr Task Force has rescheduled the conference call. The call begins at 2:00 pm MT but OPP is scheduled to join the conversation at 2:30 pm MT/4:30 pm ET. Please let me know if this works for you. I think it would be useful to have OPP at this call to be a part of the discussion and to hear directly from APHIS & ISDA. Even if we haven't had the opportunity to meet with FDA prior to August 16, I think it will be useful for OPP to participate and to be able to provide an update regarding our plans, e.g. it is difficult to change the tolerance, it is difficult to establish an "action level" above the 50 ppm level, but we are supportive of the blending options and coordinating with FDA on this approach. Thanks again, Dirk

Agenda

1. Sample results so far from 2017 (ISDA/APHIS/Dr. Curl)
2. Update on contacts for purchasing or contracting incinerators (APHIS)
3. Update from recent discussions with FDA re: raising threshold (EPA-OPP will join at 2:30 pm MT)
4. Misc.

Subject: FIFRA Spend-Down Reports

The message below informs that OCFO wants a quarterly report as of June for spending FIFRA funds and, as part of that, a reminder to send decisions on additional expenditures from FIFRA funds. Rick, since Arnold is out, if you can give any guidance or direction based on this note, it would help Brian and me. Thanks.

* OCFO has asked us for a quarterly report that would be shared with Congressional Staff, for the 3rd quarter of FY2017. I pushed back with Bruce Berkeley and asked why we would do a quarterly report in August, and that the reporting requirement only came to us in late May – so our first quarterly report would be due end of September. Bruce's response is that OCFO wants the report, as of June, and we should provide it. They requested, ASAP, I suggested end of next week and Bruce said that would be OK. It's not hard to provide the information but I wanted you to have a chance to review the report. I hope this will be a format we can use quarterly from here out so I want you to have a chance to review it.

* Brian is working on the report. Given you both will have days off at the end of this week, we were thinking of scheduling a quick meeting on Monday afternoon to share it, hear any suggested changes, give Brian time to revise. I can ask Shannon to schedule. Yes, please.

* It would be really good to get the additional expenditures list (which I shared yesterday with revisions) approved and out to the divisions so that they can begin committing FIFRA funds before the end of the FY. We will make note in our report of the additional expenditures underway. Let me know if I can help with this. I can set up a note for Rick to send today. Yes, please.

* Another exercise we can run and maybe even fund could be additional NOWCCs to be paid for by FIFRA and PRIA funds. Brian and I could put out a request for NOWCCs to support FIFRA and PRIA activities, review with Steve, and make recommendations for funding pretty quickly. In the 4-year

plan, we had included $1M per year of NOWCCs for FIFRA. Let me know if you would like Brian and me to initiate? Yes, please.

Subject: Oxitec Letter

Rick,

We have made changes based on your comments – see what you think. I think most of your comments dealt with making the letter even more understandable. Hopefully we have addressed that concern.

Perhaps we could meet to discuss, more generically, the differences between a section 3 (both conditional and full commercial) registration and a section 5 and what we would need for each from a policy and a risk perspective. In particular, I am expecting Oxitec's to ask for a conditional registration for a chunk of the southeast/gulf coast, or even the entire states of Florida and Texas, as opposed to one for just Dade and Harris Counties. If it is the latter, how is that different than several of the Wolbachia EUPs?

We would need to loop RD into this too since they feel strongly about the necessity of US generated efficacy data to support a registration. Of course, regarding a section 3 vs. 5, one of the reasons to do an EUP is to generate the US efficacy data to support a Section 3. IF we felt the Oxitec foreign data were sufficient, there would be less of a need to do an EUP I guess. Having said that, we are still learning about exactly what we would need for efficacy data as we get experience with Wolbachia and GE Mosquitoes. The draft letter covers the shortcomings we have identified. One reason to have

an SAP on efficacy next summer is to get independent peer review of our approach, much like we did RNAi that resulted in significant changes to our framework before we registered.

My expectation is Oxitec will likely want to meet on this letter, and debate us on some of the feedback. We are fine with that, but it might be early September before we could have a meeting arranged with the necessary staff.

In sum, with 236 still over at OMB for a while longer, with the Zika crisis seemingly easing, and with the protein data due here in 10-12 weeks, I think we need to think through the longer term implications from the program's perspective deviating from our approach on emerging technologies like Bt, RNAi, and now, novel mosquitoes designed to address significant public health issues.

Let us know your final thoughts on the letter, as well as a conversation on some or all of the above.

Thanks

Bob

Hi Ruth,

I'm afraid the U.S. resident will need to fill in the form (unless a green card holder). Cells that are not relevant though, can be left blank. As for the return of the spreadsheet, would it be possible to return it by August 14th? Two weeks in advance is ideal.

I will send over an email with location details, etc. by Monday.

Cheers,
Shannon

Shannon,

A few quick questions below:

Must this be filled out by our visitor who has a working permit and resides in the US, or only the visitors coming in from abroad for the meeting?
Also, once this has been completed, must it be returned to you?
If so, by when do you need this?

Max is a frequent visitor to the EPA but I do not know if he has met with Rick Keigwin before, so perhaps provide the info anyway.

Thanks for your assistance.

Kind regards,
Ruth

Thank you Max.

Ruth, Please see the attached. We will need it filled out for your foreign visitors. The first line below the header offers an example and some instruction for filling it out. Please let me know if Max is familiar with our location, or will need directions, etc.

Please let me know if you have any questions.

Thank you,

Max—

Thanks for our discussion this morning. It looks like I have some availability at 4pm on Monday, August 28th. I forgot that I was on travel on August 29th and August 30th. Hopefully this time will work for you and your colleagues. Because some of your colleagues are foreign nationals, there may be additional entry requirements for them. Please have someone from your staff work with Shannon (cc'd above) so that we have the information we need to speed entry into our building.

Thanks again!

Subject: 2017 ASPCRO Annual Meeting - Speaking Opportunity
Importance: High

The Association of Structural Pest Control Regulatory Officials (ASPCRO) will hold its 2017 Annual Meeting August 30 – September 1 in Burlington VT. We are planning two consecutive sessions beginning on Wednesday, August 30 at 10:15 AM and concluding at 12 PM and are extending an invitation to you to participate as presenter for both these sessions, or, if more appropriate, another

EPA Staff member.

The first session is currently titled "Succession Planning – Pesticides & Regulations" (10:15 – 11:15 AM) While normally discussed in the context of identifying and developing internal people with the potential to fill key leadership positions in an organization, in this session we want to focus on planning and developing laws and regulations that are currently relevant yet flexible enough to address the future of the dynamic environment that is pesticides and the challenges often faced when undertaking such an effort. These may include those that are imposed by an organization itself or the paradigm shift from reactive to proactive regulations and programs. Presenters in this panel discussion will include a representative(s) from a State Lead Agency, the regulated industry and EPA. We would like to understand the perspective of each of the presenters as it relates to the planning and development of regulations and programs in this context, challenges with and successes and/or failures experienced from undertaking such an effort, and what may need to be done in the future.

The second session which immediately follows (11:15 AM – 12 PM) is currently titled "Educating Future Decision Makers". In this session, we will continue the previous discussion shifting our focus from pesticides and regulations to pesticides and people. How do we, as regulators and regulatees, develop the next generation of leadership in our respective groups? How do we educate the next generation of external decision makers which will ultimately influence what we do and how we do it? What opportunities exist for collaboration here and beyond?

I would like the opportunity to discuss the sessions with you further. As in the past, ASPCRO is able to assist with travel expenses. Please let me know of your availability and willingness to participate and when we may be able to schedule a conference call. In the interim, please do not hesitate to contact me or Linda Johns (MT), Vice President & Planning Committee Chair, at LJohns@mt.gov <mailto:LJohns@mt.gov> or (406) 444-3676 should you have any questions or need additional information.

Thank you and I look forward to hearing from you.

Greetings All,

Let's meet to discuss the proposed October timeline (attached to this invite) as well as the issue of access to the materials, models, etc. prior to and during the actual meeting date.

Please feel free to provide feedback on the dates provided – keep in mind that many of the dates are to allow for docket staff and OA time for review and posting of both the FRN and/or supporting

materials, and panel identification as well.

Conference Line/Code / Ex. 6

Thank you for your cooperation and notice the room is PYS-9261,

MDKing

Conference Line/Code / Ex. 6
Show Time As Busy

The attached Draft Report makes recommendations only for OCSPP, namely:

1) Conduct a "needs assessment" on how to effectively incorporate ORD's products into our programs

2) Develop management controls that formalize our processes for collaborating with ORD on current and future products.

Purpose of this meeting is for the ODs to give Janet direction to craft a response to the Draft Report in the form of a corrective action plan that completes the actions above by a specific month/year.

Please feel free to delegate the meeting to a member of your staff if desired.

Thanks,

Janet

Hi Chris,

If you wouldn't mind Rick calling you, I would ask that we do it that way. When convenient, please send over the number that you would like him to use.

Thank you,

Hello Chris,

Rick and Yu-Ting are available on both Tuesday, May 8th and Thursday, May 11th, 4-5pm (ET), so I believe 1-2pm for you. Would either of these work? Were you thinking the conversation would take about an hour?

Please just forward this on if you have a scheduler you prefer I work with.

Thank you,
Shannon

Chris—

Great to hear from you. I never made it to the NPMA Legislative Days; things have been a bit crazy around here.

Would be happy to schedule a call to chat about this issue. I'd like Yu-Ting Guilaran, the Director of our Pesticide Re-evaluation Division, to join us for the conversation. Shannon Jewell can work with your scheduler to get something on our calendars. We'll look for something in an afternoon Eastern Time to fit with your West Coast schedule.

I hope all is well.

Hey Rick – Hope all is well! Sorry I missed you during the NPMA Leg days because was hoping to grab you for a beer but things got crazy because of the snow that week and had to move meetings around. Btw, as a former New Yorker, kills me that 3 inches is considered a storm in DC but I shouldn't be surprised. I wondered if you have a little time in the next few weeks to discuss surface water issues related to the pest control industry in California? Pretty flexable so let me know what works?

Subject Steps to resolve C&T FR issues
Location 1-866-299-3188, access code 2025640797
Show Time As Tentative

I know that Peter and OGC can come to this. Others feel free to join.

1. Response to press Q's: if this deadline extension is a final rule that goes into effect immediately, why is the agency requesting comments? If the decision to extend the deadline has already been made, why are comments being solicited? Or, alternatively, is that a typo on the FR notice and this is actually not a final rule?

2. Date for finalizing the rule – additional issues

Information from Peter:

Pointing you to additional info: OFR in their updated Document Drafting Handbook (https://www.archives.gov/files/federal-register/write/handbook/ddh.pdf) at section 3.1 provides that

* Documents that affect other documents previously published in the rules category [nb: not the Proposed Rules category]. These documents:

o Correct a previously published rule

o Change the effective date

o Change the comment deadline of an interim rule or direct final rule

o Suspend a previously published rule

o Withdraw a rule not yet in effect

o Petition for reconsideration

If it is infeasible/impossible to manage an effective date change before 5/22, which may be the case no matter which part of the FR the document will publish, there are still a few potential avenues of pursuit for effectuating the change.

Subject: RE: Urgent -- Due by 2:30: LINDA: Pesticides Applicators Rule; BNA;

The explanation that EPA received from the Office of the Federal Register is that:

"This is not a proposed rule. It is the next chapter in the final rule issued Jan 4. You're not proposing regulations, but asking if the effective date of a final rule should be further delayed. Therefore directly tied to a final rule and thus in the rule category."

From OFR's vantage point, this has more to do with the section of the FR that the document is supposed to publish in (Notices, Proposed Rules, Rules) than whether we're asking for comments on something. We've received similar feedback in past, e.g., a denial of a rulemaking petition has to publish in the Proposed Rules section instead of the Notices section because it pertains to a request for a proposed rule.

With respect to the questions about the effective date decision itself, other corners are also asking for more info.

Subject: RE: Prep for MRL Harmonization Workshop

Rick – Please see attached for what was presented by Barbara Madden and me last year by phone at this workshop. I think we had about 45 minutes, with Barbara covering the first part and me the second.

If acceptable to you, I'd like to ask that the present meeting be rescheduled this meeting for early in May after I return from Codex. I think there will be more to say then.

Since this time would then be available, one possible substitute would be to use this time to discuss Codex CCPR issues for the meeting to be held in Beijing the week after next. I had wanted to schedule something with you prior to leaving to "catch you up" on some of the issues. In particular, IESTI is an issue that will likely be heavily discussed at the CCPR meeting. In addition there are several other issues that are developing that would be useful to cover, even if briefly.

Please let me know if a change in the topic to meet the more immediate need is ok with you.

Tx.

Thanks. I think it would be helpful for us to meet to discuss next steps. I think we'll also need to plan on briefing Wendy before we go forward with any outreach.

We should also include Anna Lowit and OGC. Key staff working on this are welcome. We probably won't be able to meet the week following the PPDC meeting.

Thanks!

Rick,

Per your request at the EFED IO general last week, see below for a "skeleton" roll-out strategy for Synergy. We've incorporated comments from RD on this, and I believe Mike may wish discuss this during your RD general today.

Guidance Roll-Out
* Timing - Q3 or Q4, 2017
* Mechanism - Web posting & OPP Update
* Product – Memorandum to registrants: Interim Guidance to Registrants on Synergy. We're proposing a level of detail similar to that provided in the PPDC issue paper and Ed's criteria document, making sure to address the following:
o What are we doing and why?
o Scope – what actions does this apply to? (New AIs, products for which we wish to make no-effect calls (?), and removal of existing prohibitions)
o Process & Criteria – who needs to do what & when?
o Strategy & Next Steps – what are we going to do with the information we obtain?
o Attachment(s): Tools, e.g., the excel spreadsheet of statistical calculations
* Internal Actions
o Develop SOPs for regulatory situations, flowing from the Ed criteria and addressing PRIA category issues (R350 vs Non-PRIA), and providing consistency across branches.
o Continue work on comprehensive position wrt synergistic effects, synergism & PTO data.

Future Comprehensive Position Roll-Out
* Tentative timing – 6-12 additional months to evaluate relevant data for synergy patents.
* Mechanism – TBD. Options include web publication or formal FRN along with a second OPP Update. This may need to be issued for comment, depending on our position, our level of certainty, & our resources to address the comments.
* Product – OPP Position Paper on Synergy (or Synergy & PTO Data)
* Internal Actions
o Develop the above strategy
o DD/OD Briefings on strategy

Notes/Considerations/Questions
* Note that, per discussions with RD, we're proposing two roll-outs – the first a less formal roll-out to

provide consistency & transparency to registrants on what we're currently doing (simply posting materials to the web). The second will be a more formal roll out of OPP's position on synergy; targeting 6-12 months.
* Pending CBD Petition (12/21/2016) requesting that EPA require and consider information from applicants concerning mixtures and co-application of active ingredients in decision making and requesting a transparent process. This is not specific to PTO data.
* GAO Report on Bee Health discusses mixtures; November commitment
* Impact on Human Health considerations

Subject: OIG/OPE Outreach Meeting with OCSPP

Good afternoon Janet,

Again this year, the OIG's Office of Program Evaluation is scheduling outreach meetings with each Program Office to discuss how our program evaluation and performance auditing work can best serve the Agency's mission.

I would appreciate your assistance in scheduling an outreach meeting with Ms. Wendy Cleland-Hamnett, her deputies and office directors in the next month, or their earliest convenience.

We will provide a short briefing on our mission, role, and capabilities and then solicit feedback on our products; and discuss evaluation suggestions or ideas that can support OCSPP's mission.

I can provide the availability of OPE's AIG, Carolyn Copper, and Deputy AIG, Christine El-Zoghbi.

Thank you for your assistance.

Subject: RE: MRL discussion for import tolerances

Dana, et al.:

There is persistent interest among food & beverage companies in exploring the concept of a default import tolerance level for pesticide residues in imported produce. These companies are dependent on imports of key ingredients, many used in very small quantities, so having a negligible contribution to the diet. The expense and effort to pursue individual import tolerances or even crop group tolerances may not be justified. However, when ingredients are sourced and aggregated from widespread or widely scattered geographic areas and multiple small-scale producers, the importer or supplier may have little control or influence over local crop production and protection practices, in order to limit use of pesticides to those having established U.S. tolerances.

We are interested in the possibilities that EPA has considered or might consider to address this situation.

We are hoping that Friday May 19 could work for a conference call or visit to your offices. Please let us know.

Subject: RE: MRL discussion for import tolerances

Dana- thank you very much for the rapid response. There has been considerable discussion about the potential of a 'default tolerance' for pesticide residues in imported food ingredients. Our food and beverage committee has been discussing this for a number of years because of the global trade in minor use ingredients that are broadly used in processed foods. We would like to discuss the EPA current thinking on this specific issue. We recognize the language in the statute and are looking at the 'default' approach in the EU.

I will ask that Ray come back on top of this with any particulars that I might be missing.

Again- we appreciate your willingness to meet on this issue that is important to our members.

Best

Janet

Barbara, Dana and David- we would like to ask for a brief meeting to discuss an issue regarding import tolerances and default levels, as we know exist in the EU. Would it be possible to set up a 45-60 minute discussion within the next two weeks or so?

Meeting with American Chemistry Council: This is a follow-up meeting with the ACC to continue the conversation from the recent meeting with the Administrator. Will schedule room once we know about how many attendees there will be.

The emails below pertain to getting the meeting set up.
Shannon,

Please go ahead and calendar May 24 at 1 pm. I will provide a list of attendees to you early next week.

Thanks so much.

Best,

Subject: ACC Meeting with the Office of Pesticide Programs

Hello Ms. Jain,

I'm reaching out about setting up a meeting between the ACC and officials in the EPA Office of Pesticide Programs to follow-up on the one held on May 10th with the EPA Administrator. I thought that I would give you a few times when Rick Keigwin and Steve Knizner, Director of the Antimicrobials Division, are available. If these don't work for you, please let me know of a couple times that will, and I will see what can be done on this end to accommodate them.

* Tuesday, May 23rd – 4pm
* Wednesday, May 24th – 1pm or 4pm

Please let me know.

Thank you,
Shannon

Hi Rick -

The annual fly-in for the AHPA is the week of May 22nd.

I was hoping we could schedule a meeting with you and your policy folks to check in on transition and expectations for regulations related to pollinators in the coming year (e.g. acute toxicity in pollinator scenarios, neonic findings and subsequent actions, if any etc.)

As you know, the last administration left a lot on the table. Our group would like to do a re-set and see where you think things will go from here, understanding that nothing is fully settled without all staffing in place.

Would the morning of Thursday, May 25th work for you? If not, morning of May 23rd?

Thanks for your consideration and have a great weekend!
