Thanks for this.
A few comments/questions are in the attached. It sounds like we are on a path to yes, at least that's my interpretation from reading the letter. Is that correct?

Oxitec could have a complete package for review, provided they submit the information described in the letter in the correct format. While they last told us they could get the protein data in November, U.S. efficacy data is more problematic. They don't have it now and it would require an EUP to generate the data. I think that the efficacy question needs to be addressed as a policy call by upper management and the call should be reflected in our response. If there is no way we would do a Section 3 without domestic efficacy data we should say that up front. If the door is open then we should lay the groundwork for what they would have to do to "bridge" the foreign data. Then the question becomes whether we think the data will pass muster from a technical standpoint. I think we laid out what we will be looking for in the letter but that doesn't mean that the company will be able to produce that information. If we allow foreign data and they give us the protein info and everything is clean then there is a path to a registration on a 3. Path to Yes on a 5 is clearer but as we all know they have no interest in an EUP. It should also be clear that what we are doing is identifying data needs and not prejudging the outcome of a detailed, complete review.

A previous briefing memo had mentioned some concerns about the international data not being representative of the US climates. Has that concern been resolved? I didn't see it mentioned. Not that I know of and as mentioned above it is a seminal issue for this technology going forward in the short term. Rick is aware of the critical nature of that call and Goodis has now been looped in on the issue but I have not heard anyone offer a definitive answer on that front. I know we allude to it by it being in the Table but I think the corporate "we" needs to stake a position on this.

It is still a concern and listed as outstanding in Table 1 of the letter.

In an ideal world, I would like this letter to mention all the possible roadblocks they may hit so that

they don't come back and tell us that we are changing the goalpost midstream. If this doesn't do that, perhaps we need some caveating language noting that there may be other possible concerns and as they arise we would let them know.

Sounds good. We have added the following language to p. 1 of the letter, "As we review the data already submitted, as well as additional data submitted with an actual registration application, there may be unforeseen issues that arise and we will communicate these promptly as we become aware of them." Do we also have some language that gets at the concept that what we are doing in this letter is not a full scale technical review of the data and that once that happens we will be better able to determine whether or not the data supports the assessment and registration of the mosquitoes. It is true issues may arise but that doesn't sound to me like a reference to our determining whether the data is acceptable scientifically. Maybe it is elsewhere in the letter already (I imagine it is given OGC's hand in reviewing it) and the nuance is not resonating with Nancy.

And I think I already asked for the attachments so that I can make sure I'm understanding it all correctly.
Thanks!
Nancy

Nancy—

Following up on our conversation from this morning, attached is the draft screening memo that the Biopesticides and Pollution Prevention Division intends to send to Keith Matthews (as Oxitec's representative). The memo documents the deficiencies that we have identified in the submission and the additional information we would need in order to complete a thorough review of the submitted information. I should note that if this had been a submission under PRIA, the gaps identified would have precluded a further (substantive) review until the application was found to be complete.

Let us know if you have any comments or questions. We'd like to send this letter to Oxitec by the end of this week.

Subject: Meeting Request
Dear Rick,
I trust this message finds you well. On behalf of the Scotts Miracle-Gro Company I am contacting you today to request a meeting with you and your leadership team. There have been a lot of changes in the OPP organization over the past months, not to mention the change in administration and all that comes with that. Consequently the Scotts team, believes it would be beneficial to have a discussion between a few of its leaders in Marketing, Government Relations and Regulatory Affairs and key members of your leadership team. Our Government Relations team has met with Nancy Beck and is preparing to schedule a meeting with Director Pruitt. One of the goals of our meeting with you is to make certain that all levels of the EPA organization are hearing the same message from Scotts.
I am including a draft agenda to give you an idea of the topics we would like to cover. The agenda is a draft and is subject to change. Please feel free to suggest changes if there are topics you would like to add or modify. We would be very grateful for an hour to an hour-and-a-half of your time for this discussion. We would also appreciate a meeting room equipped with a projector to facilitate a PowerPoint presentation.
We are hoping to get something on the calendar relatively soon. Available dates for the Scotts team include Aug 21, 23, 25 and 28 or Sep 8. Please let me know if any of these dates will work for you and your team. Ideally you, Arnold Layne, Mike Goodis and Robert McNally would be in attendance (plus anyone else from your team you want to invite). In attendance from Scotts will be Tim Martin, Cuyler Hunter and Amanda Cicola from our Marketing team, Ann Aquillo from our Government Relations team and Janelle Restum and me from our Regulatory Affairs team.
Thanks for your consideration. We are very hopeful that you can accommodate our request. Please respond to me by return email, or if you prefer you can call me at either number listed below. I look forward to hearing from you soon.
Sincerely,
Jim Wallace Director of Regulatory Affairs

9/6/17 - The meeting agenda is now attached.

The OIG announced the start of a new audit to investigate OPP's section 18 process. The OIG's objective is to determine whether the EPA has a comprehensive emergency exemption process that maintains environmental and human health safeguards within the Office of Pesticide Programs. During preliminary research, we plan to review the EPA's assessment, approval, implementation, and oversight of emergency exemptions. This meeting will be an entrance conference. A copy of the audit notification is attached. Please forward the meeting invitation to the appropriate staff.

Subject: PRTF Meeting Request

Dear Rick:

I am writing to you as the Chair of the Pollinator Research Task Force (PRTF) Administrative Committee to request a meeting with you and your key staff to bring you up to date on the progress the PRTF has made and our plans for ongoing and future research projects aimed at improving the pollinator risk assessment process. We also want to use this meeting to solicit suggestions from you and your staff on future projects that will help EPA in its assessments of the risk to pollinators that might be posed by registered uses of pesticides.

Our regulatory and technical team is available at any time on Tuesday, Wednesday, or Thursday, September 12, 13 and 14, with a possibility of meeting on Monday, September 11, if the other dates are not possible for you and your team. We suggest an hour and a half would be sufficient for us to present our information and to have time to answer questions and exchange ideas for future research.

Can you be available on one of those days to meet with us?

Best regards,

Dick

Subject: AMVAC v US: preliminary interviews

Hi everyone,

As part of gearing up for the discovery process in the AMVAC v US takings litigation, we would like to conduct some informal "interviews" with each of you. Essentially, we would like to discuss more in-depth your role as it related to the PCNB SSURO and/or the amendments of EPA Reg. No. 5481-197. These interviews should not take more than an hour or so.

Could you please identify a time(s) in the next couple weeks where we might be able to talk with you?

Thanks,
Angela

Hi Shannon,

Could we do 8-9 on Thursday? We have a few others scheduled that morning, so early would be best for us. Hope it's still available.

Thanks,
Angela

Hi Angela,

For Rick, next week is quite full, but on 9/14 he has time 8-9amand 3-4pm available. Would either of those work for you? Just to be clear – you will conduct these individually?

Thank you,
Shannon

Subject: FW: Quick Guide for Disinfectant Products for Drinking Water Use

Hi Rick,
Tina, working with colleagues in OGWDW, developed the attached one-pager to provide an overview of FIFRA and SDWA requirements for drinking water disinfectants. The first attachment provides an overview and the second is the guidance. As you can see from note below, this has now been thru Peter and OGWDW is ok with it. We are fine with it here in AD also. If you want an briefing, please let us know. If you are ok with it, let us know that too so we can move onto communications/web clearance phase.
Thanks, Steve

Hi Steve,

Attached is a draft briefing agenda and the revised Quick Guide for Rick's review. OGWDW has completed OD level review and is waiting for our cue for roll-out. Please let me know if Rick would like for us to prepare a briefing for him on this.

Thank you!
Tina

Subject: Quick Guide for Disinfectant Products for Drinking Water Use

Good morning Steve,

Attached is the revised Quick Guide for Disinfectant Products for Drinking Water Use and draft briefing agenda that summarizes the background and review process for the quick guide. I am working with Tracy Lantz to draft an OPP update and webpage for the guide.

I got stuck in a cycle of phone tag with OGWDW last week but will work to check on the communication strategy with them this week.

Best,
Tina

Hello Jewell,

This email is a follow-up to our conversation regarding your request Work Order#135540 for GSA PKI Installation. Based on our conversation you rescheduled the appointment for the Director for Tuesday 09/19/2017 at 12 PM noon, and I've sent a separate calendar invite to you for that day and time. Please either accept the calendar invitation or propose an alternative day and time for me to perform the work. If you choose to propose an alternative time, please propose a time occurring after the currently scheduled time and include a backup date/time in the comments field for me to perform the work.

Thank you,

Location DCRoomPYS9100/Potomac-Yard-One or call in (see invite)

Show Time As Tentative

This one hour demo will go over a sample of the many OPP division projects that have recently been loaded into the Salesforce Program Plan module. This demo will also give DDs and DDDs another opportunity to see the potential of Salesforce -- this time with real OPP data. Finally, the other purpose of this demo is just to get everyone more comfortable with Salesforce, an internal (OCSPP-wide) budget tool that all divisions in OPP will be required to use at the start of FY 2018 (October 1st).

Audrey—

Thanks for your note. Regarding our work under NAFTA, you may have already come across our website that summarizes the recent work through the NAFTA Technical Working Group on Pesticides (https://www.epa.gov/pesticides/international-activities-related-pesticides#nafta). We are also in the process of preparing for an upcoming meeting of the NAFTA TWG, to be hosted by our Mexican government colleagues, in Guanajuato, Mexico in November. You may also want to reach out to John Abbott from Syngenta (john.abbott@syngenta.com <mailto:john.abbott@syngenta.com>), as he has been coordinating across industry to provide feedback and input to the work of the governments.

I would be happy to meet with you in mid-September, schedules permitting. I've cc'd Shannon Jewell for assistance in helping us find some time that works for both of us. I'd also like to ask Wanda Hall, the U.S. Secretariat for OPP's work through the NAFTA TWG on Pesticides, to participate.

I look forward to our upcoming chat.

Subject: NAFTA TWG

Good morning, Rick.

I recently took the position of Director of Regulatory Affairs at Neogen Corporation, which manufactures and registers products, including pesticides, worldwide. In furtherance of fulfilling my duties, I am aiming to find the most efficient, accurate, and thorough approach to fulfill all country requirements by a "common denominator" approach for registration dossiers. My research has, in part, brought me to the NAFTA TWG.

Can you offer any insight, beyond the Five-Year Strategy, of what the next steps will be or how I can become involved and participate in its development?

Thank you in advance. I would also like to extend an offer to meet for coffee or lunch while I am in Washington D.C. September 20 – 22 so I can properly introduce myself if you have the availability.

Have a great rest of the week, I look forward to speaking.

Note: I've attached talking points from Kevin Keaney. Thanks!

All,

This meeting is to discuss OPP's response to OIG's two recommendations in the DRAFT WPS Report.

Specifically, FEAD SME's don't think Rec. 2 is feasible for OPP given the lack of resources.

We'd like to get Sr. Mgt. input on Rec 2:

Establish a system to collect and track pesticide exposure incidents among Agricultural Worker Protection Standard target populations to enable measurement of the standard's impact and effect.

We'd like to discuss the strategy in communicating that Rec 2 may not be feasible for FEAD-OPP, and possible alternative options.

FEAD has begun to draft responses to satisfy the requirements of Rec 1.

Please see the attached OIG DRAFT report for additional details.

OPP will submit its response memo and track changes version of the report to OCSPP by Oct. 12th.

Contact me with your questions.

Many Thanks,

Amaris

Questions to EPA:

Comment A3 (p2) – can we talk through this concern to better understand it?

EPA TA: If EPA must use the best available data, but the Services don't provide species information to EPA within a time frame that allows EPA to consider it within the applicable PRIA deadline, it could raise questions about whether EPA met the statutory obligation to take account of best available data.

Comment A26 (p7) – first part of comment, does EPA have a suggestion of where to place language?

EPA TA: Is this intended to apply to EPA's regulatory actions as well as to individuals who apply pesticides? If so, putting this language elsewhere in the act might create less ambiguity.

Also, incidental take authorization is generally accompanied by reasonable and prudent measures intended to minimize the impact of take. Nothing in this legislation suggests whether EPA should consider the need for such measures in evaluating labeling.

All Directors and Deputies -- Please feel free to participate in the ~quarterly "learning exchange" discussion with pesticide state lead agencies (SLA). The meetings came out of a December 2015 meeting with SLA and OPP leadership as a way to improve communication and promote information sharing among participants. The proposed agenda for the next call is below. Please let me know if you have specific topics you would like to add for discussion and we will communicate to Liza Fleeson (VA), who has been coordinating the meetings.

Thanks, Jackie

When: Friday, September 29, 2017 2:00 PM-3:30 PM (UTC-05:00) Eastern Time (US & Canada).

Where: Conference Call

Location DCRoomPYS7100/Potomac-Yard-One
Show Time As Tentative

All,

Schedules are a bit tight, but I thought we should take an hour to discuss where we are on the draft response to the Herbicide Resistance audit. OPP's deadline for a written response to FEAD is MARCH 8, 2017 – which also includes an OGC review of our draft document.

Bill Chism has created a suggested list of divisional representation that may be needed to work on the response to the draft report. Therefore, I have also invited representatives from RD, FEAD, EFED and PRD. Bill's suggested assignments are below (Thank you, Bill).

Recommendations (Page 15) – OIG recommends that the Assistant Administrator for Chemical Safety and Pollution Prevention

1. Require that modes of action be included on relevant herbicide labels.

• PRD and RD address

2. Determine whether synergistic effects data should be required for the pesticide registration process, and document the results of that determination.

• EFED and RD address

3. Improve data collection and reporting by developing an efficient system for the agency to collect and share herbicide resistance data using a standardized reporting format.

• ITRMD (and BEAD) address

4. Develop performance metrics to document the progression of slowing the spread of herbicide resistance.

• BEAD address – this will be very difficult to do

5. Establish a procedure to increase communication with government agencies, industry, academia, growers and other stakeholders regarding herbicide resistance. The procedure should include specific details concerning increased communication and collaboration with extension agents.

• FEAD and BEAD address

Some issues for us to consider:

* For efficacy, do we want US trials? If so, how many?
* What data beyond what they have in their EUP or refer to in their EA do we need for an EUP or 18?
* How does ESA fit in all of this?
* Do they meet the criteria for an 18, do they have a sponsor?
* What additional data do we need for a Sec. 3?

My notes indicate that Jim Cowles attended the interview session for this audit and submitted the attached information to the auditor in Oct. 2016. I understand that Jim has retired so a representative from EFED is requested for this meeting. The purpose of this meeting to discuss an OPP response to the OIG recommendations for this audit.

The OIG is proposing the following recommendations:

"We [OIG] recommend that the Assistant Administrator for Chemical Safety and Pollution Prevention:

1. Conduct a needs assessment that identifies the challenges, timeframes and resources necessary to effectively incorporate ORD products into OCSPP programs.

2. Develop and implement management controls that formalize OCSPP's processes for collaborating with ORD to maintain current products and develop future products."

Thank you,

Tina, thankfully I will be gone by then....just kidding of course...but just the thankfully part....I will be retired by then

I think that we have received updates on this but certainly we'd welcome a briefing on it

You should also invite Dana

By the way, congratulations on becoming Director of NCEA....just be careful of what you have asked for

I'm sure you will be great

And NCEA will be great again

Take care, Jack.

Subject: Hello -- and neonics and human health

Dear Jack, Rick, Tom, and Anna,

Hope you are well. As you may know, Kris Thayer has joined us at NCEA from NIEHS. While at NIEHS, her team led a systematic review of neonics, focusing on human health. We would like to set up a time to say hello and brief you on this work – ideally in late February/early March. If this sounds good, we'll follow up with a meeting invitation. Let us know.

Dear Mr. Davis,

I am the Chief Deputy Director at the California Department of Pesticide Regulation. Amy Miller in the Region 9 office told me that you are handling OCSPP matters for the transition team at EPA. My Director and I will be in Washington DC March 6-9 and would appreciate the opportunity to meet briefly (15 minutes or so) with you during that time. I know you must be incredibly busy so we understand if this does not work out with your schedule.

Thank you for your consideration. I look forward to hearing from you.

Cordially,

Teresa Marks

Subject Meeting with States on Cannabis
Location DCRoomPYS9671/Potomac-Yard-One
Show Time As Tentative

Conference Line/Code / Ex. 6

The states would like to meet to discuss the 24(c)s that are coming soon as well as devices they're seeing. Here is some additional information from John Scott in CO about an issue with the 24(c)s:

The 24(c) issue we brought up about needing a restriction on Section 3 products, that are broadly worded and do not prohibit use on Cannabis, and whether EPA would or would not allow a specific restriction for use on Section 3 labels for use only under the 24(c). The concern being will EPA take issue of mentioning Cannabis at all on the Section 3 label. Here is our reasoning behind this need.

1) For any of these products to meet the definition of an SLN the state needs to determine that there are no "appropriate" federally registered pesticides sufficiently available.

2) Unlike other SLN's, these products can currently be used under the Section 3 label which by virtue of the broad label language would not prohibit their use on any crop. One may say that therefore they are available and therefore it doesn't meet the SLN definition, but since they have no specific directions for use on MJ we consider that they have not met the standard of an "appropriate" product.

3) These current products submitted and other products allowed under our "allowed" list have no specific use directions intended specifically for Cannabis. Therefore, none having "appropriate" use directions to address this unique crop and the manner it is grown and treated for pests. Hence, the need for an SLN that provides specific directions that addresses the application methods, use rates and equipment that can be used to provide an "appropriate" product that is labeled specifically for use on Cannabis.

4) A product that we may feel is not "appropriate" for use, does not change the fact that it is NOT a violation of the PAA to use product on Cannabis under the broad pesticide label directions.

5) In most cases here in Colorado, an SLN is issued for a crop that is not listed or allowed for use on the product label. Therefore, it would be a violation of the Section 3 label to use the pesticide product on that crop. In the case with these specific SLN requests, due to the broad label language they are not prohibited for use on Cannabis or other crops. Just the opposite, we have a list that specifically states they are allowed. Therefore, without requiring specific directions on the Section 3 label to restrict use on Cannabis to the 24(c), we have no way of preventing use of the Section 3 product.

So for example, if the 24(c) prohibits application by means of a thermal fogger or requires specific PPE for a type of application...if the grower doesn't want to abide by those directions he just says he used the product under the Section 3 label that doesn't have any of those restrictions.

6) We see no provisions anywhere in FIFRA or 40 CFR that states the 24(c) label negates the Section 3 label for allowed uses (which it shouldn't, since to meet the SLN definition there cannot be products already sufficiently available). Therefore, without having a specific restriction on the Section 3 product we do not feel we can enforce what would technically be misuse under the 24(c) if the Section 3 product can still be used under the existing broad labeling.

Julia—

Thanks for your note. We should find some time to chat in the coming week. We did meet with a couple of representatives from the Israeli Embassy earlier this week. I can fill you in on that conversation when we connect next week.

Hi EPA colleagues,

Israel is raising concerns on CHLORPYRIFOS, so we'll need a briefing paper and talking points. I would imagine that other countries who commented will also raise beyond them.

Perhaps we can chat next week.

Gentlemen,

On Tuesday, March 14, IR-4 is having our annual meeting in Washington. Participating in this meeting is the IR-4 Commodity Liaison Committee (CLC) and the IR-4 Project Management Committee (PMC). The CLC is a committee that is populated with specialty crop producers, commodity organizations, food processors and other stakeholders. The PMC is essentially IR-4's Board of Directors. Also in this meeting are representatives of USDA.

Traditionally, we have invited OPP and/or RD leadership to attend this meeting. Last year Jack Housenger attended (Rick, I believe you joined Jack). In the past, Marty Monell, Lois Rossi, Barbara Madden, etc. also participated. I would like to invite you and appropriate staff to attend. We are

meeting at the Hyatt Place Washington, DC/National Mall, 400 E Street SW, Washington, DC 20024. Below is the agenda for the afternoon of March 14. I am hoping you can come by at approximately 4:15 pm to provide a brief update from EPP/OPP. You are more than welcome to come by earlier if your schedule allows.

In association with this event, we are having a reception immediately afterwards. I hope you can attend this as well.

Thanks and I am looking forward to hopefully seeing one or more of you on March 14.

Jerry

Dear All,
According to the Doodle Poll, March 16 from 1PM to 4PM is the time that everyone is available. To make it easier on those working in DC and for those flying in to DCA, Sally has arranged a room for us at the USDA building.
Sally recommends meeting at the Whitten Building at the Jefferson Drive (Mall Side) entrance and security checkpoint at approximately 12:30 and we can go together to Room 3109 of the South Building. This should give us enough time to get through security and get to the room to start the meeting by 1PM. If anyone is interested in meeting for lunch ahead of the meeting, please let me know and I will try and arrange something.
Here is the address for the Whitten Building:

Please Note! ODs , OD may invite others if necessary

Purpose

This is an update for the Acting AA on OCSPP's Regulatory Agenda activities. Office Directors are expected to discuss regulatory priorities for the remainder of FY2017, anticipated priorities for FY2018, and Executive Order 13771 implementation activities. Following the discussion, the OCSPP Regulatory Coordination Staff will ensure any new decisions for actions to be included in the Spring 2017 Regulatory Agenda are properly reflected in OCSPP's submission to the Office of Policy.

From the Cotton Council:

The emerging leaders below are coming to learn, therefore we would appreciate it if your staff could concentrate on: the process that EPA takes in the registration of pesticides, and the follow-up processes such as registration-review. From our end, our group may ask general questions on the current state of affairs for organophosphates, neonics, pollinator protection, and Sulfoxaflor.

Subject: SciMetrika and ScitoVation Introduction

Dr. Keigwin,

I'm the VP of Programs for Solutem Group Life Sciences, a company that owns and operates, SciMetrika, an experienced population health government contractor, and ScitoVation, leaders in innovative cell-based science developing fit for purpose assays and computational tools. ScitoVation is the former Chemical Safety Science Institute from the Hamner Institutes. Together, SciMetrika and ScitoVation offer paper based literature search and risk assessment support. By utilizing dose response modelling, dosimetry assessment (PBPK modelling), and mechanism of action evaluation, we derive greater human relevance in the interpretation of results and more accurate assessments. We also offer computational biology and bioinformatic services. ScitoVation uses novel tools to help visualize trends in omics and aid in the interpretation of chemical mode of action to fully explore and analyze the results of in vivo studies. ScitoVation is also a leader in developing data visualization strategies to help clients communicate their science to stakeholders. To date the tools created by ScitoVation scientists include:

- Bubble maps – MOA Assessment
- IDEA – Assess pathways
- PLETHEM- Population level PBPK modeling

ScitoVation is a leader in providing data-driven modeling to display a quantitative framework for evaluating in vitro and animal toxicity studies to human effects.
Also, our team of internationally recognized experts develop custom, targeted, cell based assays to investigate chemical mode of action, that incorporate key biology to ensure human relevance to in vitro findings and can be applied to determine chemical dose-response to inform risk assessments. We are currently a small-business and I'm reaching out to see if you would be interested in talking further about the agencies priorities and to answer any questions you may have about our expertise and services. I look forward to hearing from you.

Thank you,
Chris Bartlett, PhD

From Steve Smith's 2/2/17 email:

I was wondering if I could steal a few minutes with you again when I come out to DC at the end of March? I plan on being there on the 28th, 29th and the morning of the 30th. I'm very interested in continuing our conversation about the "what if's" of this year and get your thoughts on where you are with the residue tolerances. It shouldn't be a surprise, but I am scared to death of what this year will bring to our industry as the states have not seen fit to put into place any additional safeguards except for Arkansas.

Subject Preparation Meeting -Exit Conference- Zika Audit (JC#100946)
Location DCRoomPYS7100/Potomac-Yard-One or Call Conference Line/Code / Ex. 6
Show Time As Busy

All,

This EPA-only preparation meeting is to discuss who (if anyone) wants to speak at Wednesday's meeting with GAO.

Also, this is a time to answer any questions you may have on the Exit Conference. OCFO representatives are invited too.

Our deadline for submission of written comments to GAO is this Thursday (3/30).

OPP's technical comments and response memo are currently with OCG for their review.

Next steps- OPP IO level approval then OCSPP approval, and finally OCFO will submit the response docs to the GAO.

OW is following a similar process, but now independent of OPP.

Thank you,

Amaris

As you know, OSCP is coordinating the effort to develop and publish OCSPP's Systematic Review Framework and associated web portal.

We value your input and are reaching out to solicit your help in updating the framework and portal for a mid-May 2017 release. To this end, we are scheduling a biweekly check-in meeting through May to engage and gather feedback from all stakeholders. We would like to remind you that this framework will be OCSPP's first iteration, and we foresee additional updates and refinements in the future.

For the first discussion, we'd like to refresh folks on the next steps, overall plan, and take stock of the work needed to achieve this timeline. We realize the timing for this first meeting isn't perfect for everyone, but hope that representation from each office is achievable.

As a reminder, documents are posted to the OCSPP Systematic Review Framework SharePoint site <https://usepa.sharepoint.com/sites/OCSPP_Communit y/sysrev/SitePages/Home.aspx> . The current version is posted here <https://usepa.sharepoint.com/sites/OCSPP_Communit y/sysrev/_layouts/15/guestaccess.aspx?guestaccesst oken=HWviUZ4DvcFtZq9EH5Y5iFBT3OokotObmmkkLI1T9V8%3 d&docid=2_11822f64b042b48c8a14290c6d244ef01&rev=1> . Subject Thai Luncheon
Location PYS-12621
Show Time As Tentative

Hi Everyone,

In honor of Darlene's belated birthday (it was January 31st), we are going to have a luncheon in PYS-12621. We will be ordering from Thai Peppers, a Del Ray restaurant that Darlene is fond of.

Those who may wish to dine on the delectable cuisine of Thai Peppers are invited to peruse their menu at the following link: http://www.thaipeppersva.com/menu/alexandria/lunch-speicals/.

Please give lunch orders to Shannon by noon on Wednesday if you would like to order a meal. You can give Shannon cash with your order, or settle up on Thursday.

Thank you!

Hi Everyone!

Maybe you've heard that I'm moving to the West Coast and you thought to yourself 'Is that a bunch of fake news?'. It isn't fake news! Its true!

Before I leave EPA (!) and start working for Washington's Department of Social and Health Services in Olympia, let's hang out.

It goes without saying, but the more the merrier so please forward to anyone I might have missed!

(FYI – Feb 2nd is my last day in the office, so hope to see you at the happy hour or before!)

Show Time As Tentative

All,

In 2015 the OIG suspended work on this audit inquiry. In February 2017, the OIG will resume work on this audit.

The OIG will be requesting an update on the state FIFRA grant End of Year (EOY) reports. In 2015, OPP provided some EOY reports to the OIG. The OIG is compiling a list of information/report(s) that was missing from the first 2015 request, and will be requesting the EOY reports for FY 15 and FY 16 as well. The OIG will provide a list of questions to OPP a few days in advance of the meeting.

A copy of the original audit notification memo is attached.

Subject National Alfalfa & Forage Alliance
Location PYS-12100
Show Time As Busy

Hi All,

Leaders of the National Alfalfa & Forage Alliance have requested a meeting on the pesticides listed below and would like the product managers for these pesticides to attend. Rick asked that you all be

invited and that you decide who to send from your Divisions. You can see Rick's message about representation directly below. The meeting request from the National Alfalfa & Forage Alliance is farther below. (Note that they specifically asked that Marietta and Meredith attend.) Rick probably will not be able to attend.

Warrior (lambda-cyhalothrin)
Brigade (bifenthrin)
Transform (sulfoxaflor)
Paraquat (paraquat)
Lorsban (chlorpyrifos)

Let me know if you have questions or concerns, Shannon 703-347-0109

For the first two, you'll want representation from RD and PRD. For the 3rd one, RD is the lead division. For the last two, PRD, is the lead division. Mike/Yu-Ting/Meredith can decide who to bring. Also send the invite to Wynne and Skee; they'll bring the right people from BEAD.

Thanks!

Rick,

I was hoping we could schedule a meeting with you, Meredith Laws, and a few of your product managers with Beth Nelson, NAFA President, and a few of our alfalfa seed producer members. We are going to be in Washington, D.C., from late afternoon Monday, February 6 through Thursday, February 11th and were hoping we could visit with you about a few crop protection tools that are extremely important to our industry. Our optimum times for a meeting would be:
1) 1:00 p.m. or later on Tuesday, February 7;
2) the morning of Thursday, February 9; or
3) possibly late afternoon on Monday, February 6.

We have Hill meetings scheduled for most of Wednesday, February 8, but if that's the only day that works for you we can move things around a bit.

If possible, we would like the product managers of the following crop protection tools to join us:

Warrior
Brigade
Transform
Paraquat
Lorsban

If you could get back to me at your earliest convenience regarding your team's availability for this meeting I would appreciate it. Thanks Rick.

Time 3:00 PM – 4:30 PM
Subject OPP / Oxitec / FDA meeting
Location DCRoomPYS8100/Potomac-Yard-One
Show Time As Busy

Jack Bobo (Intrexon) and Camilla Beech (consultant for Oxitec) will be coming in to discuss the possibilities for regulatory oversight of their Aedes aegypti OX513A sterile male mosquitoes. As you know, a major portion of the discussion will center around the transition from FDA-CVM for oversight by OPP, as well as exploring requirements / timing for an EUP or Section 18 action.

Likely the Intrexon contingent will grow and I will forward names and an agenda as they become available. FDA-CVM personnel to attend include Laura Epstein and Brinda Dass.

I am adding in Mark Suarez from RD for his perspective on mosquito control and TJ Wyatt for any questions which may arise from talk of a Section 18 action. Intrexon has indicated that this is one area they would like to explore.

FDA's site has information and links to Draft Guidance document #236 on oversight of GE mosquitoes as well as links to the EA and FONSI produced for the OX513A product.

Shannon,
Per Rick's note below, could you please set up a 'walkthrough' of the Front-end Document Processing Group which is located on the 4th floor in room 4900. Along with me please include the following people who work in that group; Michael Yanchulis, Shirley Burgess, Banza Djapao, Stephen Morrill, Adrienne Turner, Carrie DeVane, Francine Nowlin, Teretha Adams, Sylvia Dillard, and Anthony Ashe so they may know when this 'walkthrough' will happen. The best time for this to happen is in the morning and the best days are Tuesday through Thursday. If you need any additional information, just let me know.
Thanks,
Steve

Subject: Walkthrough of the Front End Processing Unit in ISB

Delores and Hamaad—

It's been quite a while since I've spent any time with the staff in Steve Robbins' branch. Please set up an hour for me to tour the front end processing unit, see how they go about their work, and listen to any concerns/ideas/suggestions they might have. That unit is so critical to the smooth operations of both PRIA and registration review. Spending some time with them would be incredibly helpful to me. I'd like for this to occur within the next two weeks.

Thanks!

Hello and Happy Valentine's Day HHRA Partners!

CORRECTION: Overall brief now included. Apologies for extra email today...

Please find the agenda and all presentation materials attached. We hope you will be able to join us this afternoon!

As discussed at the last quarterly briefing and during the HHRA Portfolio and PACT Launch briefings held this summer, the HHRA program will provide these highlight meetings in each quarter with all HHRA program partners together. The briefings begin with a "science spotlight" feature presentation and then provide highlights of progress on products in the 9 projects of our HHRA FY16-19 research portfolio.

The "science spotlight" in Q2 will be provided by Dr. Paul Price of NERL entitled "New Findings on Cumulative Phthalate Exposure Using NHANES Biomonitoring Data". This represents work in progress on one of the products in Project 6 (HHRA 3.23)–Cumulative Risk Assessment (CRA) Methods and Applications. A short abstract follows below:

A screening cumulative risk assessment was performed for six phthalates using biomonitoring data from the most recent NHANES cycle (2013 and 2014). These data address exposures in adults and children ages six years and older. Toxicity values used in the assessment were taken from Christensen and Lorber (2014) and CPSC (2010). The assessment found that 0.7% of the surveyed individuals had body burdens of potential concern (HI values greater than 1). The phthalates that were the most frequent drivers of large HI values were DEHP and its replacement DINP. A comparison to earlier cycles of NHANES we found a seven-fold drop in the number of individuals with HI values greater than 1. This was largely due to decreases in DEHP exposures over this time period. Future declines are not expected because DINP has become the major driver for HI values greater than 1 and DINP levels are rising over time. These finding may change if different toxicity values are used in the

assessment. Individuals with HI values greater than 1 had exposures that were dominated by exposure to a single phthalate. The finding that a single phthalate dominates individual's exposures occurs because of the underlying pattern of exposures and is largely independent of the choice of toxicity values. These finding may not be relevant for infants and children under the age of six if those populations have different exposures then older children.

The presentation will be via webinar at the following URL:

Although there was a technical difficulty with the recording of the November 15, 2016 (FY16 Q1) briefing, we do hope to be able to record the briefing for those who will be unable to join us.

Hello -

This is an on-line focus group session conducted by Penton Media Group (for CauseWay) on WPS messages to the agricultural community, before they are used in print media. They will be "testing" the messages without photographs.

We have only ONE line we can use to monitor in the background. Therefore - I will set it up in the conference room so you may come by and take a look if interested.

Thanks!

Subject: Dallas CoE -- future mission

We briefed Jack today on a potential role for the CoE in Integrated Vector Management (IVM). He seemed sick (blood shot eyes, coughing and running a fever, I think he may have a Vector Borne Disease), but very interested in the concept. We wanted to set up a separate briefing with you to outline our thinking a bit more.

The attached concept paper outlines what the CoE can do in 2017 and beyond as we finish our School IPM national priority efforts with the Regions and others.

Currently, we have a Talent Hub out to fill a Senior Advisor position in BPPD that seeks a candidate with a strong IVM background. We believe we will have at least one very qualified candidate apply. This position would be located in the Dallas CoE.

Richard—
I hope you are doing well.
Before Jack left, he mentioned that it might be time for us to reconvene our senior teams to discuss where we are with the neonic re-evaluation and our respective paths forward. I'm hearing from my team that our timelines might be moving out of alignment. Given all the collaborative work we've done together, I think it would be great if we could keep the momentum going.
Perhaps you might have some time in the coming week to discuss, just the two of us? I've cc'd Shannon Jewell who can work with your scheduler to find a time that works for both of us.
Have a good weekend!

Time 2/22/2017 12:00 AM – 2/24/2017 12:00 AM
Subject ICCVAM Focus Meeting: A Roadmap to New Approaches for Safety Testing
Location NIH Building 35
Show Time As Free

I have pasted the latest draft agenda, including logistical information, as part of this invitation. This outlook invitation should include all ICCVAM members and other agency representatives invited to the meeting. I will send a separate email message listing attending and instructions on how to add additional people who are not currently listed as attending.
ICCVAM Focus Meeting: A Roadmap to New Approaches for Safety Testing
February 22-23, 2017
NIH Porter Neuroscience Center, Bethesda, MD
The purpose of this meeting is to start the process of developing a strategic roadmap which advances the evaluation of chemical and drug safety in the United States. Please come prepared to discuss the draft vision and mission (below), with consideration of the following strategic themes: promoting

development of new approaches, establishing confidence, and ensuring their utilization by Federal agencies and industry.
Draft Vision: To establish new approaches for evaluating the safety of chemicals and drugs in the United States that will improve relevance, increase confidence, and reduce costs.
Draft Mission: Federal agencies, technical experts, and the regulated community will work together to establish a generalized framework for assessing the safety of drugs and chemicals that will 1) coordinate, promote and guide the development of key science and technology initiatives 2) facilitate the use of new processes for establishing confidence and improving human relevance 3) expedite the utilization of new approaches for decision making by Federal agencies and regulated industries while reducing, refining, or replacing animal-based testing. An initial focus on developing new approaches to meet address existing regulatory guidelines and guidances will generate tractable goals by which to measure success.
WebEx is available for the morning sessions on both days for those unable to attend in person.
Day 1 – February 22, 2017
Time Agenda Item
9:00 AM – 12:00 PM Day 1 Morning Session: Meeting and WebEx

1. Welcome/Introductions: Drs. Lowit and Jacobs
2. Meeting Overview and Desired Outcomes: Dr. Mader
3. "The Roadmap: Now is the Time and ICCVAM can Help Make it Happen": Dr. Birnbaum
4. "Aligning Technological Development and Regulatory Need": Dr. Austin
5. "The Roadmap – Starting with Utilization in Mind": Dr. Casey

* Building Consensus – To create an effective roadmap, we need to agree on where we're going and how we'll get there together. This session will first focus on achieving consensus on the overall vision and mission of the roadmap to lay the foundation for our success.
* A Framework for the Plan – Building on consensus achieved with the vision and mission and preparing for the detailed discussions in the afternoon, this session will identify key sections of the roadmap outline.

12:00 PM – 12:45 PM LUNCH
12:45 PM –
3:30 PM Day 1 Afternoon Session: Meeting Only (No WebEx)

6. Envisioning Success: Dr. June Mader

* During this session, participants will look ahead to a successful process and reflect on how the roadmap process brought success. Concurrent breakout sessions will address targeted questions to inform:

* Considerations and challenges to be considered during the roadmapping process
* Promoting development of new approaches
* Establishing confidence in these approaches and ensuring their utilization.

* Participants will have the opportunity to discuss and provide input to each of these topics in pre-designated breakout groups.
* The output of these groups will be used to identify the high-level Goals (WHAT needs to be done to accomplish the Mission), to be discussed and agreed to on Day 2. These Goals will then be used to identify specific Objectives to advance the roadmap effort (Afternoon, Day 2)

3:30 PM Adjourn
3:30 PM

7. Synthesize Output from Breakout Groups

* NICEATM staff and Breakout Group representatives summarize results from Breakout Groups

Day 2 – February 23, 2017
Time Agenda Item
9:00 AM – 10:30 AM Day 2 Morning Session – Meeting and WebEx

8. Welcome and Review Day 1 Outcomes and Day 2 Activities: Dr. Lowit
9. Presentation and Discussion from Day 1 Breakout Groups: Dr. Mader

* Identify and discuss emergent Goals from Day 1

10:30 AM – 10:45 AM BREAK – WebEx ends
10:45 AM – 12:00 PM

10. Objectives: Brainstorming Activity

* Objectives are activities that specifically progress the Goals
* Each participant will have an opportunity to provide input on Objectives for each Goal during this facilitated brainstorming activity.

12:00 PM – 12:45 PM LUNCH
12:45 PM – 2:15 PM Day 2 Afternoon Breakout Groups – Meeting Only (No WebEx)

11. Develop Draft Objectives

* Participants will work in goal-specific groups to organize and build on the input from the brainstorming activity in the development of draft objectives that are Specific, Measurable, Action-oriented, Realistic, and Time-bound (SMART)

2:15 PM – 3:00 PM
12. Wrap-Up, Confirm Text for Public Release (SOT and FRN) and Next Steps

Subject CropLife America Board of Directors Visit to EPA

Location Studio E, The Renaissance Arlington Capital View, 2800 S. Potomac Avenue, Arlington, VA

Show Time As Busy

CLA is making plans for their Winter Board of Directors Meeting on February 27, 2017, and they would like to visit OPP to discuss current and emerging topics of the day. Division directors and deputy office directors are asked to attend the meeting.

Draft Agenda Topics—Monday 2/27/17; 3 to 5 PM; CLA-OPP Leadership Meeting; Renaissance Hotel, Crystal City, VA

1. Welcome/Overview-- Diane Allemang & Rick Keigwin
2. Communications Outreach-- what are new ideas for communicating to key audiences about the rigor of the science reviews by EPA of pesticides
3. Resources-- what's likely to be new and improved in PRIA 4 and how are the real resources fitting together (aka approps)
4. Water modeling -- progress we've made together (EPA and CLA) and what's next?
5. Synergy patents-- a surprise new issue and how we (EPA and CLA) have made progress
6. What does the farmer need? Possible remarks by one of our CLA Farmer Advisory Panel members
7. How can we make the EPA staff's learning experience even better from the RISE CLA April Regulatory Conference ?
8. ESA and Pesticide Policy—are we finally at a point of regulator and/or legislative resolve ahead?
9. Adjourn meeting

Subject: Requesting an introductory meeting

Dear Dr Keigwin,
We have met briefly at a PPDC meeting. May I request 30 minutes with you to introduce myself? I am copying Shannon as I assume she will support you and take care of your diary? In which case, if agreeable to you both, I will call Shannon for an appointment.

All best wishes, and congratulations on your new role.

12/23/16: Adding call-in line

The purpose of this meeting is to follow up on the OD briefing this week (week of December 12th) to better understand the overall antibiotic resistance strategy. Susan should recap the current team proposal and include timing/schedule and details on the purpose of the additional information from the registrants and who will be doing the evaluation of the additional information. The group will then discuss the best way to obtain the information (i.e., through RD or PRD's DCI), benefit of the pesticides (BEAD), potential risk management approach (RD/PRD). While BPPD has not been involved

in the previous discussions, Jack and Rick would like their perspective and input.

12/22/16 update: Making way for moved Monday meetings.

Location DCRoomRRB41213/C Conference Line/Code / Ex. 6

Show Time As Busy

NAS has almost signed off on the study we funded, Incorporating 21st Century Science in Risk-Based Evaluations. They would like to brief EPA (and other cofunders) on January 4th at 10 AM, before they release the report publicly and brief Hill staffers. We will send the invite from Bob Kavlock. Hope you are able to join the briefing.

Non-EPA attendees should call 202-564-6620 when you arrive for an escort.

Hi Paul,

Would Tuesday January 10th work for you? 10am or 2pm are both open. If you would like to try for Wednesday the 11th to get to both of your meetings in one day, 9am and 2pm are open. On Thursday the 12th, you have your choice of 9am, 11am, 1pm or 3pm. Please just let me know which you prefer.

Thank you,

Shannon

Thank you, very much, Jack. I wish you a good Thanksgiving as well.

Paul

I respect that very much.

If you would like, I would be pleased to visit with you sometime during the week of January 9th, to continue with discussion of some of the challenges that we face as an industry. As you may remember, you and I had a fairly short conversation at lunch at the golf course in Tulare, and I felt that I had squeezed in a lot of concerns into a short period of time. There wasn't a lot of time for interaction. A bit more about me. I am a licensed pest control advisor/certified agronomist for the Hronis family where we grow table grapes and oranges in Delano. I am the chairman of the Consolidated Central Valley Table Grape Pest and Disease Control District and am also chairman of the Environmental Resources Committee of the CA Fresh Fruit Association. It's not often that I get to Washington, so I thought if it worked for you, that we could take advantage of the opportunity to discuss either specific or general issues. If you would like for me to meet with other people within EPA, I would certainly be agreeable to that. I believe that having good two way communication is important.

> Marcy, Blake, Chris, Max, Judy, and Paul, Thank you so much for the time you spent with us today to discuss the role of chlorpyrifos in controlling the vine mealybug in grapes. It is definitely a huge advantage for us to meet and hear directly from the people potentially impacted the importance of this use and the consequences if it were not available. Discussing the potential impacts on water was especially enlightening and should help us better refine our water assessment for this use. We look forward to working with you in the future on this and other issues. I will say that I'm hopeful I don't dream of a black widow crawling up my leg tonight. If I do, you'll hear about it. Please don't hesitate to call me directly if you have any questions and also forward this email to anyone I missed that attended today. Thanks again. Jack.

below. I am not certain if they contacted anyone about attending or sent an invitation to an EPA representative. I did not get one. In the past the invitation came to Daniella and it was Daniella that coordinated David's and my participation. I also believe it was Australia that provided the funding for both trips – I know for sure they paid for my transportation when I severed as a co-chair and I think they may have paid for David's trip also.

First I heard that there was even going to be another workshop is when Kevin reached out to me in the e-mail below to see if we could give an update on the progress of the pilot project but that is somewhat premature so I do not even know what they would want the EPA representative to do at this workshop. However, I did not just want to ignore his request so forwarded this on. I will wait to hear from you as to whether you want me to respond.

Thanks

Perhaps we can get together sometime next week to discuss. Unfortunately, I was not aware of this workshop, so it is not on our travel plan and funds are incredibly limited. I've cc'd Shannon to see if she can work some calendar miracles to find some time for the 4 of us to chat.

All,

I am really not certain who to direct this to but please see the request from Australia to have some participate in their MRL workshop. This is a follow-up to the meetings David and I have participated in the past.

Barbara,

Happy New Year, hope you had a pleasant break over the holidays. In terms of presentations/discussion, from what you've outlined it's obviously way too premature to raise the US EPA initiative.

However, regarding the APEC workshop, I think there would still be some value in having a representative from the US participating. If for no other purpose than to provide the sort of input and insights that yourself and David Miller have contributed previously. I realise it's a long way to come but I hope someone from US EPA can still make the workshop.

Regards,

Kevin

Subject: RE: APEC Import Tolerance workshop

Kevin,

I hope this note finds you well. I am not certain if anyone from EPA will be attending the APEC Import Tolerance workshop.

However, I think it is somewhat premature for the US to discuss the pilot project. We have three requests pending to establish import tolerances without the submission of data but instead submission of a national authority/JMPR review of the residue data. Those actions are in the queue for review but are not due to be completed until mid-2017. Therefore, it is too early in the process to provide any feedback as to whether we think this approach is feasible and if it is, under what parameters the US would consider accepting national/JMPR authority reviews moving forward.

So I think the best you can say at this point is that we are considering it. The write-up I sent you earlier has not been updated so is still current. I can certainly let you know if anything changes between now and February.

All the best to you and your family in the New Year.

Barbara

Barbara,

I'm not sure to whom I should be directing my query, but am hoping you can help. There is a workshop planned for February on the APEC Import Tolerance Guideline, (draft agenda attached) but I'm uncertain how widely it has been circulated. From a US perspective I was wondering if the pilot import tolerance project went ahead, and if so, whether there might be scope for someone from the US to provide a briefing on the projects status.

Kevin

Anna,
As we just discussed, the FIFRA data aren't in the version that will be beta tested (as we work towards how best to treat formulations in general in the summary output), so perhaps we could look for an early/mid-January call to brief Jack and Rick to ensure that we have the green light before launching the public version. That timing will also work nicely with the other 3 endpoints which by that time should have been cleared by EPA.

Our niceatm friends are developing a database of data that includes some pesticides data. they are hoping to release a beta test version of the data in a few weeks.

All,

In this meeting with the OIG, they'll discuss the audit scope and objective, and will answer any questions we may have about the project process, methods of gathering data, and reporting procedures.

OIG has narrowed the scope of the audit and will update us on their current objectives.

Please contact me with any questions.

Thank you,

Rick, Gloria,

Please set up a meeting for week of 1/23 on chlorpyrifos. Let's consider this a first take on a briefing for new Administration officials who may know nothing about the pesticide itself, FQPA/FIFRA, risk assessment approach, the litigation, etc.

Please include those on this email and those who Rick identifies from OPP. Also, Kevin and Bob – there may be someone else from OGC you'd like to include.

I'd like to receive draft briefing material by 4 pm the day before the meeting.

Let me know if questions.

Thanks!

Hi Yu-Ting and Billy,

This is your regular general with Jack. I will soon send you a new recurring meeting invitation for the same bi-weekly time you have had, through Rick's calendar. Rick had a conflict at your normal 10am time, and that's why this one is for 2pm. Billy may have a conflict at this time. I can change this to 4pm of Tuesday, January 24th, if that would be preferable, just let me know. Thx, Shannon

Time 1:00 PM – 2:00 PM
Subject Pressure Treated Wood and Micronized Copper
Location PYS-12100
Show Time As Busy

AGENDA

1) AWPA Use Category System

2) Treated Wood in Ground Contact Construction

3) Historical Trends in Copper Retentions

4) Comparative Copper Leaching Data

5) 2016 US Market Share

6) AWPA Voluntary Guidance for Structural Joists, Beams and Stringers

Attendees:

1) John Horton (KPC)

2) Seth Goldberg (Steptoe)

3) Nick Skoulis (Steptoe)

4) Pat Quinn (The Accord Group)

Statement from Pat Quin: Meeting with my client John Horton of KPC/ Osmose to discuss issues related to pressure treated wood and micronized copper. This follows a similar discussion which we had with Steve Knizner and the AD team.

I am wondering if we might find an hour on Jack's calendar on either January 25th or 26th. John would be traveling from Atlanta for the meeting which I would also join.

I can be reached at 202-289-9800 if we need to talk. Likely will be John, me and possibly Seth Goldberg attending.

Meeting scheduled 12/20/16.

ROAT Studies Overall Question

When considered together, do the three studies described in Lundov et al., Yazar et al., and Zachariae et al., provide a scientific weight of evidence in support of the establishing a point of departure for determination of an elicitation threshold for methylisothiazolinone (as identified in Lundov et al.) for use in dermal risk assessments?

I wanted to follow up with you on antibiotic use in plant agriculture that I mentioned in passing in mid-December when I met with you and Rick. The MCFA technical committee did receive the draft proposal for guidance development specific to plant agriculture use of antibiotics at its meeting on the 15th. After those discussions and revisions to the document, I was asked to request a meeting with the appropriate OPP staff to further the discussions on how to best address and implement a more streamlined process surrounding these decisions. These tools could have a significant impact on management of bacterial diseases across a wide spectrum of plant agricultural production. We recognize the very import issues surrounding these decisions and want to work with you to ensure the best science and policy decision process can be brought into focus.

Once we have a meeting date established we will be happy to provide you with an agenda, projected attendees and any information you in preparation for a meaningful discussion between our diverse commodity group spectrum and your staff.

Jack Bobo of Intrexon has requested a call with Elizabeth and myself to discuss the likely scenarios and timing for handoff from FDA. Before we speak with him, we thought it best to confer and ensure we are all on the same page.
