Hi Richard,

I just got back in town, was out all last week. I will get to this today.

Thanks

Mike

Please sign the QARF after addressing all comments in the QARF and SOW and **send the original signed QARF** to me. The mail room as indicated documents from the MO can be sent overnight, pouch mail, etc.

It would be helpful to send the documents electronically as well.

Thanks.

Mike,

Please respond to Lee's question below and sign, date, scan, and send her an electronic copy of the QARF. Thx.

Lee,

Here are the cleaned up copies, QARF just needs Mike's signature.

Richard

Please clarify if I understand the documents submitted last Friday: that you all have accepted the changes QA recommended and there is going to be a QAPP/SAP (one document) and an FSP (another document).

If so, please run a clean copy of both documents and submit with the COR signature. Please check for a consistent font in the SOW.

Hi Richard,

Attached are the updated versions. I hope these are okay.

Thanks,

Mike

Subject: QA Review - WA 359-RSBD-A882 Columbia Falls Aluminum Plant

Hi Richard and Mike

We have reviewed the QARF and accompanying SOW submitted on 10/12/16. Our comments are provided in track changes.

In the SOW, clarification is needed on whether you are requesting a SAP, FSP, and QAPP. We are assuming you are requesting a SAP and a QAPP. Please note that the SAP is generally a subset of the QAPP. There should be one QA document that is documented on the Crosswalk. We have provided language should this be the correct assumption. If not, you have our comments to guide you on how to clarify what you should request of the contractor.

Please let us know if you have questions. I will be out Friday and back on Monday, 10/17/16.

Lee
