Hi Millan,

It took some digging, but I understand that Administrator Lisa Jackson used her personal funds to buy cuff links for the men and something else for the women from a famous New Orleans jeweler. We do not know how much she spent because she used her personal funds to buy this gift. Administrator Gina McCarthy gave the ministers a Boston Bean Pot which was her signature gift during her term. Donna Jenkins should be able to help you with the value of the bean pot.

Sarah may have told you that the Innovation Hub at Oklahoma University has offered to create a gift for the Administrator to give to the Ministers. They are coming up with some ideas for us to consider. We could purchase the materials so it would not be a gift to the government.

Mark

Thank you for raising this Mark. If you're able to provide, it might be helpful to have examples from the past so we have an idea of the caliber of gift.

Subject: CEC Prep

Hi Millan/Sarah,

We are moving along well on preparations for the CEC in OKC. Something to think about in the coming weeks is what the Administrator would like to present to Secretary Pacchiano and Minister McKenna at the CEC in Oklahoma City. While June probably seems very far away, I am raising this now in case we need time to special order something. Also, sometimes we have needed to secure sizes from the ministers which can also take more time than expected.

While we understand this isn't the most pressing issue this week, I just want to put this in your queue for consideration so we have the time necessary to deliver.

Thanks, Mark
