Lets see if we can have a draft response by Monday noon for my signature.

Jennifer please take the lead on the overall letter.

Erik please take the lead on responses to question 1-4.

Assuming the answer to question 4 is they can go ahead and skip to refined modeling, I think the answer to question 5 is just we appreciate their concern about the deadline, we hope that by moving directly to refined modeling they will be able to meet the deadline.

For question 6, I think we should have a conversation with them regarding specifics of their situation and invite them to work with Jennifer to set something up.

Ellen, I would appreciate your thoughts on question 7.

Thanks all.
