Agenda
Further Discussion on Available Data on Priority TSCA Chemicals
EPA & Automakers

May 15, 2018
1201 Constitution Ave, NW, Room 4121C

EOP / Ex. 6

- Order and introductions (All)
- Background (EPA)
  - Section 6(h)
  - Purpose of discussions with industry
  - Potential uses of data
- Questions & discussion (All)
  - All Chemicals
    - Description of data
      - Assemblies and parts
        (is it possible to have pictures, diagrams, or illustrations?)
      - Interpreting percentages
  - Asbestos
    - Import, processing and distribution of asbestos containing gaskets
  - PIP (3:1)
    - Industry standards
    - Supply chain and manufacturing process
    - Construction materials of replacement part sub-components containing PIP (3:1)
    - wide ranges of weight %, and relationship to functional efficacy
    - Functional purposes of target chemicals
  - DecaBDE
    - Replacement Parts
      - Import and manufacture
      - Timeline for continued production, given proposed phase out
    - Construction materials of replacement part sub-components containing decaBDE
    - Wide ranges of weight %, and relationship to functional efficacy
  - HBCD
    - Replacement parts
    - Annual amounts of HBCD used annually
    - Imported and manufactured
    - Parts containing EPS or XPS, high intensity polystyrene (HIPS), electrical or electronic components or automotive textiles.
    - ranges of weight % (less than 1%), and relationship to functional efficacy
- Wrap up and follow up actions (All)

<u>Automakers Alliance Attendees</u>

Stacy Tatman

EPA Attendees

Joel Wolf
Doug Parsons
Ingrid Feustel
Sue Slotnick
Stephanie Jarmul
Cindy Wheeler
Tim Lehman
Robert Courtnage
