Hudbay response letter_18MAY2015.pdf

Ah, I thought so. Please analyze and be prepared to summarize for TT's understanding of key issues. Perhaps I can find us some time with him tomorrow afternoon and avoid the need for any written product.

Also, just spoke with Paul about management lead on this project, which makes sense for me to maintain. He doesn't need to review and approve everything, but please do include him in all communications and meetings. Thx - J
