Call w/ Alex & David (12/17/20)
(Todd joined also)

> A+D just came from mtg w/ Administ. about PFBS Assmt
> Administ. indicated UFs are policy and should not be subject to peer review.
> Directed that the PFBS Assmt be modified to:
  > include a range of UFs
  > OCSPPs scientific rationale for lower UF (only 1) be added to doc to provide rationale for range.
  > The OCSPP scientific review memo should be added to Docket
> Alex/David directed Todd/Tala to add text to latest drafte PFBS doc from OCSPP memo.
> I raised that we did not write our memo as external facing and considered it internal; addressing request by David
> Alex & David said could "genericize" the memo for public posting

---

> Alex asked for when could be done with edits
  > Todd indicated large workload already working on holidays
  > Todd indicated 12/30/20 was soonest could do as directed.
