Discussion_Paper_Illinois_River_Watershed_3_29_2018.docx

Hey Carol – I think the paper that Richard sent around earlier this week may have most of what you need to speak about partnerships.

Here is a snippet on the meetings held with the Technical Workgroup, but there is additional context in the paper you might want to incorporate.
"EPA convened a total of six Technical Workgroup (TWG) meetings between April 2016 and November 2016 with the expressed purpose of refining the models and to garner technical consensus of the state and tribal agencies."

Here is the website where the models are housed - https://www.epa.gov/ok/water-oklahoma#watershed

It might be easier to circulate the slide once you have it and we can edit it.

Subject: More on IL River

Sorry to keep bothering you, but since the slide is on partnerships, I need some info on outside stakeholders.

1. How many public comment, meetings, events for input were held?

2. Major commenters (1 or 2 at most):

Ag interests – I'm assuming Pork industry – any others
Municipalities, Utilities –
Envros. –
Any public interest groups ?

Thanks

P.S. I couldn't find a website for this.

Carol
