We don't have that info at DEQ. I am checking with OWRB to see what they can provide. I'll let you know as soon as I get some feedback.

Hi Joe,

In working on the Lake Tenkiller model, we need to compare the final processed bathymetry files used in Scott Wells' CEQUALW2 model of lake with ours. Also, we need the raw data used to develop the bathymetry files. Please let me know if we can get both of these bathymetry files from you.

Thanks so much.
Taim.
