---

Hi Suzy,
EPA has completed its review of the attached FCR-06 and the attached Figure submitted on May 20 and FCR-06 rev-051915 is approved.
Regards,
Tanya

Tanya,
We have modified FCR-06 (previously approved on April 27, 2015) to include the use of the alternative well installation method for MW-12. We need to access MW-12 by crossing potential bog turtle habitat. In our discussions with USFWS, they have restricted the use of heavy equipment in these areas. As such, we likely cannot access MW-12 using the geoprobe.
We left the FCR in track changes so you can see the changes that have been made. Only the text was revised; however, I have included the table and figure for completeness.
Please let me know if you have any questions.
Thanks,
Suzy
