Subject: RE: New Lead ALEs as of July 2018

This relates back to a 2016 effort by HQ and the Regions. The Regions went out to the states requesting a status on each and every system currently exceeding. This is no longer happening, but I have continued to make DWGWPS and DECA aware of the latest and greatest with respect to the LCR. I also update the original HQ spreadsheet with a new tab each quarter, so we are at least aware of the systems exceeding. So long as we are confident our states are addressing these systems, we have no direct role.

Sorry I need to be reminded about this again – but what is the procedure in addressing this list? I'm thinking I email the states and ask them to follow-up.

Thanks,

These are the ALE's reported since the last quarter. The ALE is considered a "Repeat" if the system has reported other exceedances since 1/1/2016.
