Hi Sally,

The Work Plan will be submitted by AKRF, located in White Plains, NY. AKRF will also perform the subsequent air sampling. Marc Godick of AKRF will be the lead for this effort.

I tried to reach you at 518-402-9767 but was unable to get thru. When you have a chance, please call me at 973-630-8544 and I will set up a 3 way telephone call between myself, you, and Marc Godick.

Regards,
Mark Sielski, PG

Re: Work Plan Schedule Extension, Holiday Schedule and Personnel Change for the Magna Metals Site

Hi Mark, it is imperative that this indoor air sampling occur within this heating season which typically ends on March 31st. In order for this to happen, Tetratech needs to submit a work plan to the Department, the DEC and DOH need to review it and comment on it, Tetratech will need to resubmit the plan, and then we need to review it again for final

approval. Then Tetratech will need to mobilize and perform the sampling. Also, the responsible party needs to gain access to the buildings from Baker Properties for the indoor air sampling. This all needs to occur before March 31st.

Because of this tight time frame, a 30 day extension is not acceptable. The work plan must be submitted to the Department by January 12, 2007. If you have any questions, please call or email.

Hi Sally,

I am requesting a 30 day extension for the work plan. With previous client schedules and coordination, personal schedules and holiday time
off, meeting the December 20th date is not possible.

I will be out of the office from December 21 thru January 2.

Also, please be advised that Mr. Donald Campbell, your point of contact and
Site Manager for Magna Metals has resigned from Tetra Tech. Please direct
all communication to me in the future.

Regards,
Mark Sielski

Hi Mark, Yes, these are the only comments. If you need to request an extension it should be done in writing. But also remember that the testing needs to be done during the heating season so we want to get this going ASAP. Thanks, Sally

Hi Sally - received the letter, thanks for resending. I may have to ask for an extension, but will check personnel's schedules over the next few days and get back to you regarding that matter. Are these the only comments on the data report?

Thanks again.

Regards,
Mark Sielski
