Subject: Diesel PEMS test order status for GM 2011 MY Engine Family 9GMXH06.6590

Larry,

Wanted to set up a meeting with EPA later in April to review status on the subject engine family PEMS test order. The program is required to be completed by end of June 2013. GM has conducted it's testing using Sensors, Inc. on both gaseous and PM emissions but has had great difficulty procuring the required number of Duramax customers to participate in the program. We have completed testing on 3 vehicles and a 4th vehicle will be tested in California the week of April 22.

At our proposed meeting, we would like to discuss the following:

- Duramax Engine Family Overview

- Procurement Efforts / Statistics
- PEMS Data obtained to date
- Waiver request for 5th vehicle
- Future PEMS Test Orders
- Next Steps

Request we schedule a two hour meeting sometime the week of April 29th. Would propose we could come to the Ann Arbor office and link the D.C. office via conference call. If necessary we can come to EPA Washington. Will contact Jay Smith regarding scheduling a meeting room in Ann Arbor. Please call if you have questions. Thanks.

Randy

Subject: Diesel PEMS test order ...

Randy,

Here is the test order you requested.

Thanks,
