Ms. Beverly Houston
345 Courtland Street, NE
Atlanta Ga. 30365

Dear Ms. Houston,

It has come to my attention that you you need request or statements from people of the Riverside Gardans area to help you in a decision making process.

My part in this situation is to comment on my personal happenings connected with gases or a problem with some type gas comming from or resulting from the land fill in our area.

My name is Theresa Cerra and I personally was involved

000647-K

in a two (2) day evacution period from my home. After detecting a horrible order in my house I called Lake Dream Land Fire Dept - in Nov - 1982 - At that time I was informed my house had possible gases from the ground comming up under-neath my house. So we, (my family of (5) five), were told to leave for a few days until they (Fire Dept) fanned out and cleaned out - or whatever was necessary to our home - to make it safe for return. After two days of living in a hotel on Dixie Highway we were told we could return.

Secondly I have been informed that the EPA has,

rejected the landfill as having anything to do with medical problems. I for one know this is not true - If at all proveable - which I don't know how one could - I'd like to know why when a person continually has a headache - and frequent dizzy spells - (when never having them until moving to this area), this can not be connected to gases, etc from that landfill.

My husband, Alberto Cerra, and myself bought our house Oct 1, 1981 - and both have had frequent periods of dizziness for no appearant reason other than this smell that occurs around here. Sometimes stronger

then other times.
We would like you
to take our vote or
opinion that there is
a danger over a period of
time to ourselves and
our three children 7 yrs,
6 yrs, and 5 yrs of age.
And although the readings
The E.P.A. take are not
high always - smaller amounts
over a period of time can
only harm a person not
help or do nothing at all.
Please note we would
like to be evacauated or
relocated from this area
if that is a possibility.
Thank you -
Mr. & Mrs. Alberto Cerna
