Subject: Request for EPA-OBD Approval: OBD-Group MY2013 CR60: Approval target Date July 25, 2012

Dear Bob,

Please see attached the OBD certification documents for Mercedes' OBD system MY2013 CR60 (V6 Diesel engine with SCR technology).

As discussed during the EPA/Mercedes conference call on March 1, 2012, we have made the application based on the OBD system description as required for CARB. All of the demanded data are included in this file, including the meeting minutes of the conference call.

--> Mercedes requests for EPA-OBD approval and appreciates if the EPA will issue it until July 25, 2012.

If you need any support or if you have any questions, please let us know short-term.

We can offer an 1h conference call to discuss the submitted documentation (structure, content), if necessary. Please inform us, if and when we should call you.

Thanks in advance.

Greetings from Germany.
