AreaRae VOC Readings (ppm) for Linc 114
December 1, 2012
The AreaRAE readings are instantaneous measurements that we are assuming are conservatively representative of concentrations that can be quickly compared to a relevant indicator value for health and safety purposes.
This information is for discussion purposes only and subject to the limitations and uncertainties associated with monitoring devices.
Monitoring initiated at 09:54. There is a known data gap between 16:57 and 20:26 due to maintenance issues with the monitoring instrument
All graphs for Dec 2 on are based on data reported in 10 second intervals. This graph is based on data reported in 1 second intervals for part of the file and approximately 10 second intervals for part of the file.
