Lisa,

My apologies, I should have been clearer up front about our availability. Unfortunately, the dates you propose hit our spring breaks and two of us are on vacation. We are available any time after April 3rd. Please propose some additional times.

I'm sorry about that,

Randy

Lisa,

I appreciate the concern you show for our employees. We are considering the issues and alternatives related to NGS at this time. However, we would like to keep moving forward on this project as the outcome of the NGS decision may still require us to get this issue clarified.

Attached is a third supplement to follow up on our discussions from the last call. We would like to request an additional call, not only to discuss the issues addressed in this package, but also to discuss some initial questions Peabody has about proceeding alternatively with an application for a synthetic minor permit.

After you have had a chance to review, please contact me with some suggested dates for a call.

Appreciate it!

Randy Lehn

Hi Randy-

I was planning to try to setup our next call as we are ready to follow up on the items from the last time. But, I just saw the news about NGS. I know this decision will have a huge impact on individual lives, and that's not lost on us here.

I realize this is extremely new news, but just wanted to let you know we're ready to keep moving forward if and when you are. Just let us know.

Lisa Beckham
Environmental Engineer
Air Permits Office
EPA Region 9
