Subject: RE: Andre Patterson and Felita Sample Inquiry--Request to Order HUD to Shut Down
Attachments: Board 1 - Intro to Open House.pdf; Board 2 - TI History.pdf

Nadia,
Attached are two of 8 boards that were used at the Navy open house in May 2014 before the interior scans were performed. I'll forward the other two via separate e-mails because the combined file sizes are too large to send in a single message. These don't by means represent the totality of materials to communicate with residents, but they were intended to be "plain language" materials.

Ms. Sample is a Catholic Charities resident, I will see if I can get a copy of her lease disclosures. As you have probably been told, Mr. Patterson is not on the lease for Ms. Sample's unit.

Thanks,
Bob

Thank you!! I also talked with Keith and that conversation was very helpful. Perhaps Bob can verify for us if her specific lease had that information.

Also, apparently, nobody actually went to the ATSDR clinic. Now that I am re-reading this email it just says they were referred to the clinic, but that doesn't mean they went. Would be good to get something from ATSDR regarding that as well, does anyone have anything confirming that in writing, or could you get something like that?

Also, I received several emails from Mr. Patterson with various photos of letters and other information. I am still making my way through them, but one of them appeared to be information distributed to the residents by some sort of third party community group (see attached).

1) Does anyone know the source of this information?

2) Has the Navy or housing folks provided any response to this material, or developed a fact sheet that's as easy as this for the public to understand?

3) What about the potential historical exposures, since I understand some of the former housing areas, schools, daycare, etc. may have had contamination in the past, but I understand from Keith that perhaps these were not at levels that would have presented a direct exposure issue? Is there a table or fact sheet that shows the "safe levels" vs. what was discovered and when people may have been in those areas, for how long, etc.

Thanks, I don't really have time to dig around all of the huge documents and all the fact sheets available, so if you can just point me to the ones that are the most useful to understand these questions I'd really appreciate it!

Hi Nadia,
I'm cc'ing Keith and David on this email in the hopes that they can answer your question in regards to Ms. Sample and Mr. Patterson. I believe they have experience with her. I did see the article from Ms. Sample a while back. There are more out there from years past.
Some of the items Mr. Patterson discusses below were on the voice message he left me. It's important to remember that there is no exposure to COCs or ROCs in the housing units. I did leave Mr. Patterson a voice message that it is my understanding that all new tenants are told of the cleanup activities on the island and that the information is also included in their lease agreements. I have reached out to Bob Beck with TIDA on this issue, but have not heard back from him.

Nina

Hi, I've received several more emails with attached pictures, etc. and allegations of radiation poisoning. You likely are getting the same information. One I'd like to bring to your attention—see the e-mail below that alleges violations of laws about HUD housing that I am not very familiar with, so have referred this to my legal for input.

Also, I recently saw the attached article in the paper, showing the areas where Citizen Name / Ex. 6 lives and the results from the radiation screening work. Is there a fact sheet or other type of document that looks like this, that has been provided to

the public? It seems we need to have some factual information about the levels found, where they were found, so the community will know if they ever spent any time in those areas in the past, and if they are currently living over detected levels?

Thank You Very Very Much For Your Time, Effort, And Consideration On This Very Important Matter Of Superfund Site Treasure Island. The Program That Operates Our Housing On Treasure Island Is HUD-Shelter Plus Care. Shelter Plus Care Is For Mentally Disabled Tenants. The Island Population Comprises Of: 1/3 Mentally Disabled, 1/3 Mentally Incompetent, And 1/3 Mentally Retarded. What A Crying Shame How They Are Doing The Failure To Disclose To The Tenants. HUD Rule 24 CFR 50.3 Prohibitive Use Of A Contaminated Site. This Is An Illegal HUD Site That Is Radiation And Chemical Poisoning The Tenants. California State Landlord Tenant Disclosure Law, Number 7-Closed Military Base Because The Landlord The San Francisco Roman Catholic Archdiocese Failed To Disclose To The Mentally Disabled Tenants. This Is Against Federal Law And State Law. Personal Matters / Ex. 6 Personal Matters / Ex. 6 I Have 60 Family Members Over The Course Of 13 Years Came And Visited Me Are Sick. We Called The NAVY Captain Dr. Robert B. Knowles At Region 9 ATSDR And He Issued Us All Referral Letters To Go To UCSF Radiation Clinic. I Have Family Members From Kansas City, Missouri That Came To Visit Me And She Is Sick And Was Referred To Go To Tyler, Texas University Radiation Clinic. I Have A Friend From Vancouver, Washington Came To Visit Me And He Is Sick And Was Referred To The Radiation Clinic In Portland Oregon. Citizen Name / Ex. 6 Has Family Members In Harker Heights, Texas And Converse, Texas And They Are Sick And Were Referred To To The Radiation Clinic In Tyler, Texas. Citizen Name / Ex. 6 Have 6 Family Members In Fairfield, California And They Are Sick And Were Referred To The UCSF Radiation Clinic. Citizen Name / Ex. 6 Have Family Members From Benica, California They Visited Citizen Name / Ex. 6 And They Are Sick And Were Referred To UCSF Radiation Clinic. Citizen Name / Ex. 6 Has Family Members From Walnut Grove, California And They Came To Visit Citizen Name / Ex. 6 And They Are Sick And Were Referred To The UCSF Radiation Clinic. Citizen Name / Ex. 6 Has 12 Family Members That Came To Visit From San Francisco, California And They Are Sick And Were Referred To The UCSF Radiation Clinic. I Have Over 30 Family Members From The 7 Bay Area Counties That Came To Visit Me And They Are Sick And Have Been Referred To The UCSF Radiation Clinic. Citizen Name / Ex. 6 Have Family Members In Merced, California, Seaside, California, And Marina, California Came To Visit Citizen Name / Ex. 6 And They Are Sick And Was Referred To The UCSF Radiation Clinic. My Family Members From Los Angeles, California, And Ridgecrest, California Came To Visit Me And They Are Sick And Were Referred To The UCSF Radiation Clinic At UCLA Radiation Clinic. I Have Family Members From Sacramento, California And They Visited Me And They Were Sick And Were Referred To The UCSF Radiation Clinic. I Have A Family Member In Maine That Came To Visit Me And He Lost His Kidney. This Radiation And Chemical Contaminant Has Jumped Containment. Can You Please Order HUD To Shut Down This Operation So The Tenants Can Escape Their Fraudulent Leases And Be Transferred With Housing Choice Vouchers? The Tenants Need To Be Evacuated And Decontaminated From Radiation And Chemical Poisoning. It Will Take You Can To Muster All Of Your Strength, And Leadership Abilities That I Know You Posses And Order Superfund Site Treasure Island To Be Evacuated.

Respectfully Submitted,

Felita Sample
Andre' Patterson
