Confirming we haven't received inquiries from Youth Radio. Several weeks back we did get something from Al Jazeera, but we directed them back to DTSC I believe. Press inquiries are sent to Suzanne for coordination with my program—contact below. If we should receive something, I'll let you know.

Hi,
We have received some questions from another media group regarding Treasure Island. Please let me know if they have also contacted you and if you have responded to their questions. Thx.

Nina

Subject: Treasure Island from Youth Radio

Nina,

Denise Tejada of Youth Radio is doing a piece on what it is like to grow up on Treasure Island. She has spoken to the Navy and Development authority. She doesn't care about an interview or sound bite for the radio, but has the following request of DTSC:

We also want to include a statement from DTSC on whether it's safe for people to live on Treasure Island:
1/. What are the environmental concerns you have with respect to radiation and other sources of contamination there?
2/ What, if anything, are you currently looking out for/testing?
3/ What is your current assessment of the safety of living on the Island?

The development authority will speak to the housing plans, but we can discuss the cleanup efforts and what we are doing to ensure the protection of public health and the environment.

Here's a link to the Youth Radio page
https://youthradio.org/staff/denise-tejada/

Thanks, again, for your patience.
