SUBJECT Hazardous Waste Incinerator Application Pratt & Whitney EPA I.D. CTD 990672081

DISCUSSION:

Don, I have attached Section O - Liquid Injection Incinerator of the above referenced application for your review. Section O includes some of the work items such as: II Engineering Description; IV Trial Burn Plan; C) Detailed Test Schedule; Detailed Test Protocol etc which we agreed that you would assist us with.

At this point I would like you to look over to identify some areas where your assistance may be worth while.

Bill Torrey is the permit engineer. He and I would like to meet with you during the week of July 4-8 to discuss the work and what form your work output will be to us. Please give me a call (223-4450) to arrange an appropriate time and place during that week so that we may discuss.

Thanks Dick B.
