AGENDA

Subject: Meeting with EPA Region 9 on Oversight of Alameda, Hunters Point and McClellan Remediation of Radioactive Material

Date/Time: Tuesday, September 15, 2015, 1:30-4:00

Location: EPA Offices, 75 Hawthorne, between Howard and Folsom, Rm 1312

Contact: John Chesnutt, 415-972-3005
Lily Lee

Introduction and Purpose of Meeting

EPA's status of oversight at Hunters Point

- Oversight activities completed in past year
- Oversight activities planned for next year
- Key issues (Tetra Tech soil sampling review; release of E-2 landfill status; glass building 253; review of Parcels B,G,D2, and utility corridors 1, 2, and 3)

EPA's status of oversight at McClellan

- Oversight activities completed in past year
- Oversight activities planned for next year
- Key issues (Consolidation of CS-10; Old Magpie Creek; PLR008 Cover; 5-year review)

EPA's status of oversight at Alameda

- Oversight activities completed in past year
- Oversight activities planned for next year
- Update on the transfer of responsibility for Site 2 to the VA.
    - What is the formal document that commits the VA to its responsibilities for Site 2 in the future?
    - NRC would like to continue its "stay-informed" approach and reliance on EPA for future Five Year Reviews of the VA's Site 2. Does NRC and EPA need an agreement for this future involvement?
- Key issues (Site 1 Record of Decision; Site 32; Building 5/400 foundation contamination (OU2C), EPA's role in reviewing Building 5/400 remediation of contamination in rooms and foundations or institutional controls for foundations; and Sea Plane Lagoon future uses)
