Nadia –
I'm sorry I didn't make it, how did this go?

Also, what's happening at TI? Any resolution of the vegetation issue?

I still haven't spoken with my managers about the site visit on October 31, do you still plan to go?

Lily—thanks for coordinating. If you could give me a call when you are ready to discuss TI, I'll come at that point.

Here's the proposed agenda that NRC gave us for tomorrow's mtg. Noone made any comments on it. Of course you are welcome to sit through any & all of it. But if you just want to come for the part about your own site, if you want, I can call the RPM for the site when it's your turn. Then you can alert the others on your team.

AGENDA

Subject: Meeting with EPA Region 9 on Oversight of Alameda, Hunters Point and McClellan Remediation of Radioactive Material

Date/Time: Tuesday, September 15, 2015, 1:30-4:00

Location: EPA Offices, 75 Hawthorne, between Howard and Folsom, Rm 1312

Contact: John Chesnutt, 415-972-3005
Lily Lee

Introduction and Purpose of Meeting

EPA's status of oversight at Hunters Point
- Oversight activities completed in past year
- Oversight activities planned for next year
- Key issues (Tetra Tech soil sampling review; release of E-2 landfill status; glass building 253; review of Parcels B,G,D2, and utility corridors 1, 2, and 3)

EPA's status of oversight at McClellan
- Oversight activities completed in past year
- Oversight activities planned for next year
- Key issues (Consolidation of CS-10; Old Magpie Creek; PLR008 Cover; 5-year review)

EPA's status of oversight at Alameda

- Oversight activities completed in past year
- Oversight activities planned for next year
- Update on the transfer of responsibility for Site 2 to the VA.
    - What is the formal document that commits the VA to its responsibilities for Site 2 in the future?
    - NRC would like to continue its "stay-informed" approach and reliance on EPA for future Five Year Reviews of the VA's Site 2. Does NRC and EPA need an agreement for this future involvement?
- Key issues (Site 1 Record of Decision; Site 32; Building 5/400 foundation contamination (OU2C), EPA's role in reviewing Building 5/400 remediation of contamination in rooms and foundations or institutional controls for foundations; and Sea Plane Lagoon future uses)

Overview of EPA's role at Treasure Island

Future Actions
NRC's potential jurisdiction for military radium-226 and comment responses on draft Regulatory Issue Summary
