I. HISTORY OF SITE

The Colonial Printing Ink Company is located at 470 Great Southwest Parkway in Atlanta, Georgia 30336. The facility has been owned by Kewanee Industries of East Rutherford, New Jersey since 1979 and has been operated by Colonial Printing Ink Company of Atlanta, Georgia. The company was the manufacturer of screen printing ink prior to its closure in 1983. Prior to closure, the part A Application for this facility was withdrawn and the facility was classified as a generator.

II. NATURE OF HAZARDOUS MATERIALS

The only hazardous waste generated by the facility was waste ink (flammable liquid). Prior to final closure forty-four 55 gallon drums of waste ink were shipped to Ashland Chemical Company of Doraville, Georgia for storage and final disposal at Chemical Waste Management's facility in Emelle, Alabama.

III. DESCRIPTION OF HAZARDOUS CONDITIONS, INCIDENTS, PERMIT VIOLATIONS

The facility was never inspected prior to the final closure.

IV. ROUTES FOR CONTAMINATION

Unknown

V. POSSIBLE AFFECTED POPULATION AND RESOURCES

The population distribution within one, two and three mile radii of the site is 448, 999 and 2,036 respectively.

VI. RECOMMENDATIONS AND JUSTIFICATIONS

This site is assessed a "Low" priority for a Site Inspection because the facility was never inspected when it was operational or after it was closed.

Dear Sir:

We wish to withdraw our Part A Hazardous Waste Permit Application for the above subject location.

During the summer of 1980 "best advice" was to file Part A, form 1 and 3, to obtain Interim Status should the storage of hazardous wastes beyound 90 days become necessary.

This location does not operate hazardous waste treatment or disposal facilities and at no time since November 19, 1980 have hazardous wastes, subject to 40CFR 265, been stored beyond 90 days.

We wish to retain Gererator status and our EPA I.D. number.

Sincerely yours,

RE: Request for Facility Status Changes for Colonial Printing Ink, Atlanta, GAD094066859

Dear Mr. Lambert:

This will acknowledge receipt of your request for withdrawal of your application for a Hazardous Waste Facility permit.

As requested, your status has been changed to a generator and your EPA Identification Number has been retained.

Please be advised that withdrawal of your permit application invalidates any variance that you received to continue existing hazardous waste treatment storage or disposal during the permit review process and that based on our concurrence with your withdrawal request, the Federal Environmental Protection Agency will terminate your facility's interim status.

Should you wish to treat, store, or dispose of hazardous waste in the future, it will be necessary that a hazardous waste handling permit be issued, prior to the construction of such facilities, under authority of Section 8 of the Georgia Hazardous Waste Management Act and paragraphs .10 and .11 of Georgia's Rules for Hazardous Waste Management, Chapter 391-3-11.

If further clarification is needed on this matter, please feel free to contact Ms. Gwendolyn Glass at 404/656-2833.

re: Hazardous Waste Disposal

To Whom It May Concern:

Regarding the disposal of our waste stream, Hazardous Waste Manifest CWMA-1221, be advised that due to the variable nature of our ink waste, care must be taken to insure proper disposal, as this waste in ignitable and may contain free liquid. Precautions must be taken so that in disposing of this waste we are in complete compliance with all state and federal regulations pertaining to ignitables and those prohibiting the burial of free liquids.

Should this be impossible, we must be notified and the waste returned to our Atlanta branch.

RE: Closure of Colonial Printing Ink Company
GAD094066859

Dear Ms. Glass:

We received your letter of July 25, 1983 on September 6, 1983 requesting written confirmation of closure for our Georgia location. Per that request, please be advised that our facility is now closed, as per our telephone conversation.

All waste generated by Colonial Printing Ink at the Atlanta location has been removed according to the regulations of the Resource Conservation and Recovery Act, as evidenced by attached Manifests Nos. 1221 and 1397. The waste was removed by Ashland Chemical Company, an EPA licensed transporter, to Chemical Waste Management, Inc., an EPA licensed disposal facility.

Though this location was closed in terms of customers in April, we retained responsibility for the waste until it was all disposed of according to state and federal regulations.

We hope this information is sufficient. If you require any further information, please advise.
