I can print to pdf using my home computer as well, but really depends on what you have. It can wait.

I'm using my personal computer, not my laptop. I have trouble printing emails on paper at home, so I'll wait until tomorrow unless I can get it to work. I'll send the pdf's if I get them.

It can wait, but I do it all the time WAH. Are you using webmail or the client on your laptop? Either way you should be able to print just like you would in the office. Prefer getting the original email instead of the forwarded version.

Nadia,
Do you know if I can do this while WAH? I know I can do it in the office and will be in tomorrow if you can wait until then. I could also just resend without any additional text added.

Hi David—Can you do me a favor and save these original e-mails from Saul as pdfs (print to pdf)? That way, we can upload them as electronic files and include them in the FOIA documentation if needed.

If I am to take over this FOIA, then I'd also like to see the original request, and the index list from the Record Center or Nicole's group that you used to identify the responsive documents available in our files. Does HQ have an HRS package repository by any chance?

FYI, as far as I know, we were never able to find the complete and finalized HRS package.

Hi Nicole,

Once again, thank you for the information and list of participants. We didn't expect to see the internal draft summary sheet and appreciate the effort to get your Office of Regional Counsel to review it for release to us. We are still looking over the summary but it would be very helpful if we could get the complete and finalized HRS package including its distribution list. It's an important historical document. It would be very useful to have a copy in our archives and for documenting the early days of TI's remedial investigation. Fortunately the final package is a public document so that at least eliminates the need for ORC and the extra step for you.

Thanks again,

Saul Bloom

Hi Saul-

I apologize for the lateness of sending this to you. We needed our Office of Regional Counsel to review for any potential confidential information. Attached is the score sheet from 1991 for Treasure Island. Please let any of us know if you have questions.
Thanks,
Nicole Moutoux

Below is contact information for EPA folks that participated in the meeting with you in June.
