Just got in a few minutes ago and read through all the email traffic that took place after I finished at the office yesterday. The package never came to my desk so I am very glad it made it to yours at least. I am looking at the package now and will return to your desk, Cliff, in about 5 minutes. Not sure how late you get in this morning but hope you can keep this moving. Also added your name to the concurrence block for ORC "management."

Yes, Sirkku and I took care of preparing the packet. Sirkku, will you find out the status of this and reply to all? The last that I heard was that it was up for Mary to concur.

Hi All,

I'm checking on the status of the Approval Memorandum and concurrence routing. Has the package been assembled and routed for concurrence? Would love to get this done before the holidays, although they're upon us as it is.

Thanks,
