Please see attached Approval Memorandum for your review and comment. Earl has already reviewed a previous copy and made comments. This version encompasses Earls comments, and has a new section describing a bit of EPA and USCG history and relationship. I would like to keep this section short (is difficult given the history). Also attached is a draft Site Location Map, which is also in the process of being changed and edited - specifically the title.

Once finalized, we'll have a concurrence page drafted up to go along with the Approval Memo. Who should be on a Concurrence sign-off? I'm guessing Chris F, Cliff V., Mary Q, Tina R, Bill Duncan? Jonathan Freedman?
