Sir, good to hear from you and hope things went as well as can be expected with the funeral.

We can easily change the dates on the Scope of Work and anything else on the PRFA (except the amount since it is at my ceiling).

I will get you the contact info for the RP tomorrow second thing (have another urgent issue going on as well).

Hi Chief,

I am currently working on internal paperwork necessary to kick the EE/CA off, and have submitted the PRFA for internal review. So far, the only thing I see that may be a problem is that we obviously didn't make the briefing on Oct.1. My father had passed way on Sept. 27 and I was in Texas at that time. I'm back now and have circulated the PRFA for a quick review. Looks good to me and Chris Field. We may be ready to initial the PRFA and accept the Scope of Work, but I want to make sure that not making the briefing date will not impact performance of the PRFA. Can we change the date in the PRFA to a date in the near future?

Also, for internal EPA admin and paperwork purposes, I need to know the address and phone of the RP - Walt James' group, Washtenaw County LST-1166 LLC.

Thanks. If you'd like, I'd be glad to visit by phone. Otherwise, we're moving forward on beginning the work, now that I'm back.

Sorry to hear that, if necessary feel free to give me an alternate POC and we can work through them to give you time to deal with the issue.

Thanks Chief. I'll review and get back to you. I may be a bit off and on responding to you, as I've had a family emergency and am on my way back to Texas. Uncertain how long I'll be there, but will try to get this moving as quick as I can. Will work to get internal site id's and accounting strings going, then task our contractors asap. I have already contacted them to give a heads up.

Richard - I'll be in D.C. in early October and may want to take the opportunity to come by and visit.
