Subject: Fwd: Draft Agenda for the Feb 26th Meeting
Attachments: Draft agenda for pesticide use meeting_2_9_2018.docx; ATT00001.htm

Did we get the FWS diazinon questions that were supposed to come on Monday?

> > Dear All-
> > As we discussed, our goal is to make this meeting a "roll up our sleeves" working meeting. To that end, we have modified the workshop format to eliminate what I am going to refer to as "dueling powerpoints." First, we set the stage with EPA and FWS giving a short powerpoint discussing the diazinon background information. Then the next 4 hours will focus on the agricultural survey data. We propose to have this section broken into a problem/solution format. So EPA, FWS or NMFS will take the lead on a certain topic (question), show a slide or two to present an issue, and then a slide or two to offer solution. Then all agencies will discuss as a group to determine a path forward for how to use the data. Topics/questions outlined in this agenda may morph as we receive more information (note the TBD for additional items). Then later in the afternoon we address non-agriculture usage. Our thought for this section was to hear from all the agencies what data is available, how to capture that data, and then figure out

action items if necessary. So, we may not resolve each of these non-agriculture items at the meeting, but we can set the path for how to resolve.

We incorporated most of your suggestions into this revised agenda. FWS questions on the diazinon data will be sent out to the group on Monday.

Thanks everyone, have a good weekend!
Patrice
